

Scientific Linux Plenary Discussion

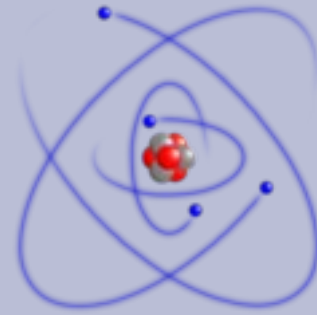

Troy Dawson

dawson@fnal.gov

HEPIX Fall 2007

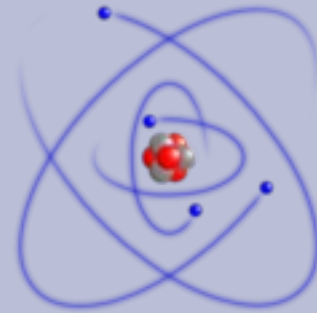

November 9, 2007

Scientific Linux

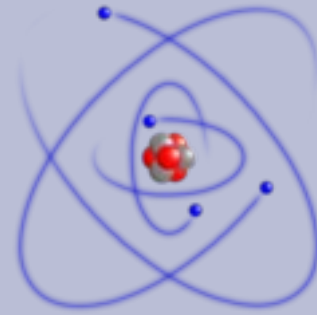

- This is our change to get direction from you, the users of Scientific Linux.
 - What is important
 - What should we change
 - Discuss time lines and road maps

Scientific Linux

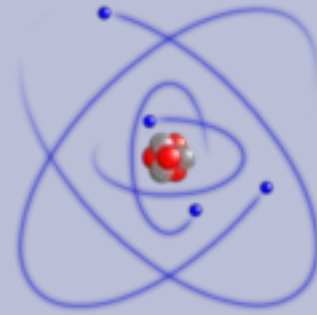

- Support time line for Scientific Linux 4
 - End of support date will be set in Hepix Spring 2008
 - We'd like some feedback now to help plan
 - Here is Red Hat's support policy
<https://www.redhat.com/security/updates/errata/>
 - Full Support 3 Years
 - Deployment Support 3-5 Years
 - Maintenance Support 5-7 Years
 - RHEL 4 was released Feb 2005
 - What do labs think is a reasonable time frame

Scientific Linux

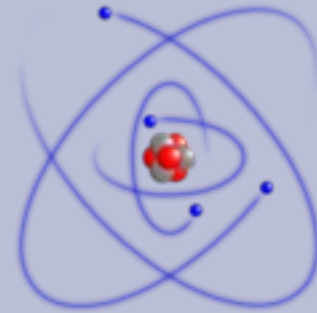

- Adding more 'non-default' repositories
 - CentOS
 - EPEL
 - rpmrepo
 - jpackage
 - Others?

Scientific Linux

- Other Questions?
- Other Comments?
- Other Discussions?
