HEPiX Fall 2007

Monday, 5 November 2007 - Friday, 9 November 2007

The Genome Sequencing Center at Washington University in St. Louis

Scientific Programme

These are general topics of interest for the HEPiX Fall 2007 Workshop technical sessions. Whether these tracks have dedicated sessions in the final agenda will depend on the number of submissions that are received and accepted in each track.

We look forward to seeing your contribution!

Site Reports

Presentations from each participating HEP site describing the latest developments at their respective sites.

Storage

Virtualization

Linux and Windows virtualization
