CRYOMODULE PRODUCTION

Tuesday 01/12/20

Chicago Time	Duration	Title	Presenter	Institute
		Cryomodule Production		
9:10 AM	0:05	Welcome - Introduction	S. Berry C. Grimm	CEA FNAL
9:15 AM	0:10	Sealing surfaces and bellows protection (over all the life cycle of the part)	TBC	CEA/FNAL
9:25 AM	0:10	Discussion		
9:35 AM	0:10	RGA - Vacuum requirements - Permitted materials Magnetic Hygiene	K. Middleman	STFC
9:45 AM	0:10	Discussion		
9:55 AM	0:10	High-skill staffing training (cleanroom, assembly, chemical technicians)	T. Trublet	CEA/FNAL
10:05 AM	0:10	Discussion		
10:15 AM	0:10	Break		
		Cryomodule Production		
10:25 AM	0:15	Weld certification	R. Cubizolles	CEA
10:40 AM	0:15	Discussion		
10:55 AM	0:15	Geodesic strategy - fiducials, alignment - Alignment Process	Donato Passarelli?	CEA/FNAL
11:10 AM	0:15	Discussion		
11:25 AM	0:15	Instrumentation interfaces, interfacing of sub-systems to accelerator	Vincent Roger	FNAL
11:40 AM	0:20	Discussion		
12:00 PM	0:00	Session End		

Wednesday 02/12/20

Time	Duration	Title	Presenter	Institute
		Cryomodule Production		
7:30 AM	0:05	Welcome - Introduction	S. Berry C. Grimm	CEA FNAL
7:35 AM	0:20	The care, maintenance (issue of access to the CM for maintenance / repairs) and final preparation of the CM prior to shipping - LCLS-II Experience	J. Holzbauer	FNAL
7:55 AM	0:20	Discussion		
8:15 AM	0:20	Production / industrialization : how to organize the production line? Standardization: Tooling Moving parts or moving team?	O. Napoly	CEA
8:35 AM	0:20	Discussion		
8:55 AM	0:15	Magnetic Hygiene - Permitted materials	N. Bazin	CEA
9:10 AM	0:20	Discussion/Close Out/Report Summary	S. Berry C. Grimm	CEA FNAL
9:30 AM	0:15	Session End / Break
