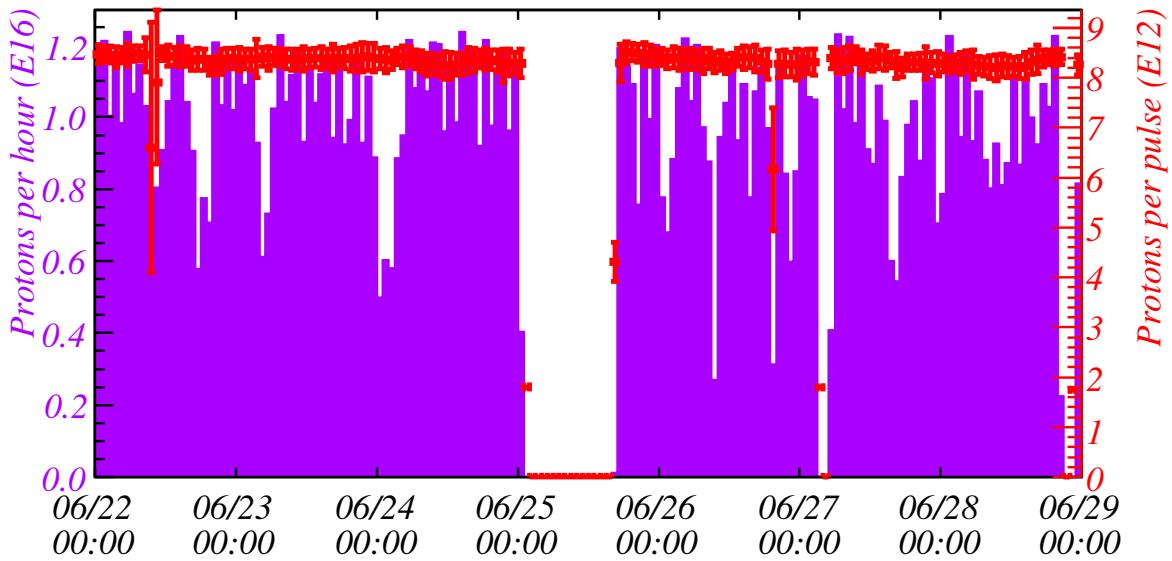
Phil Adamson
Fermilab Accelerator Division

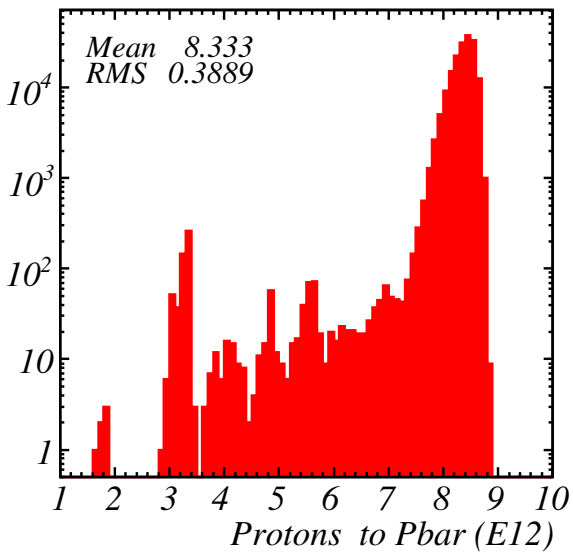
Main Injector Weekly Summary

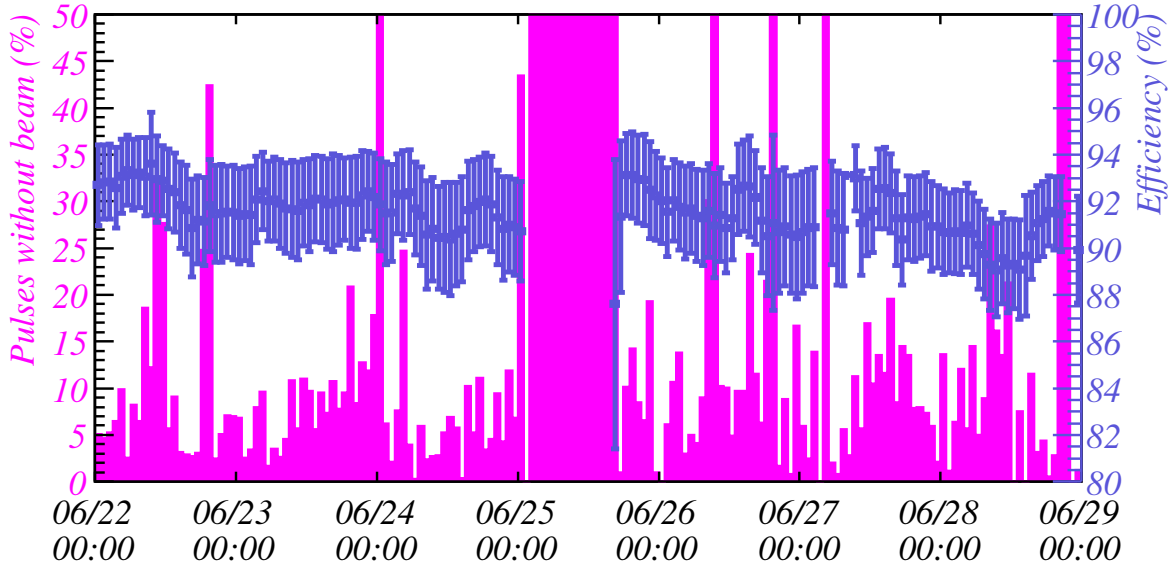
Friday 29th June 2007

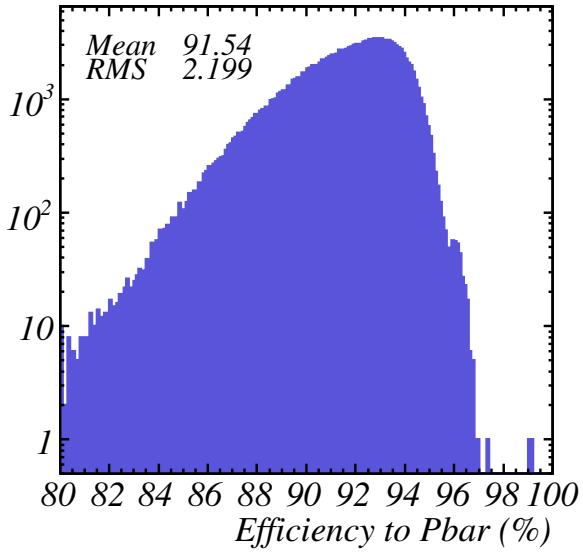
Pbar

P. Adamson
Accelerator Division
Fermilab



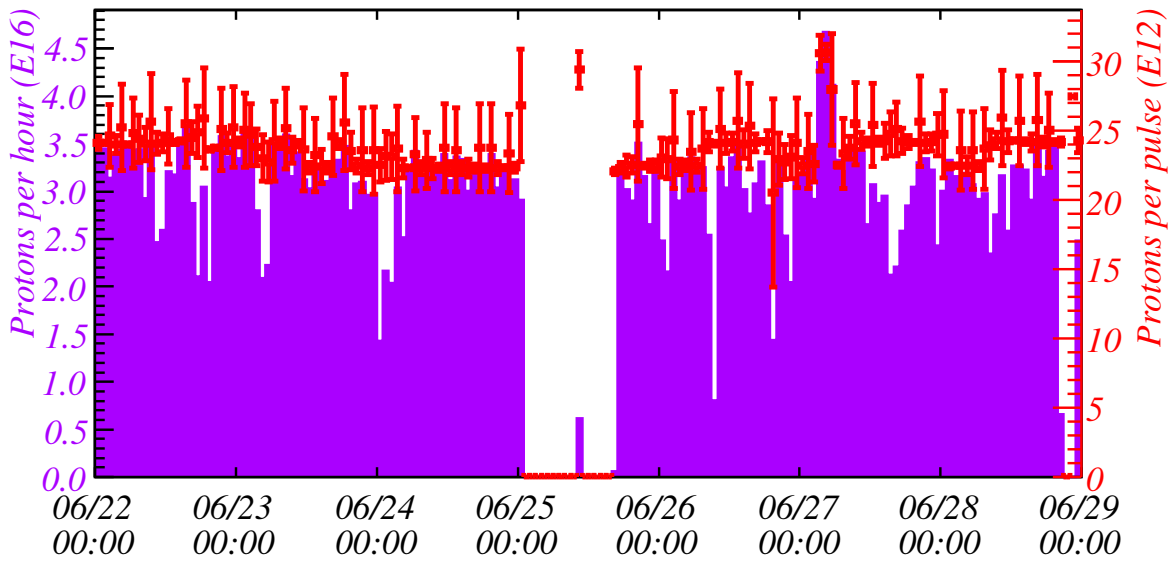


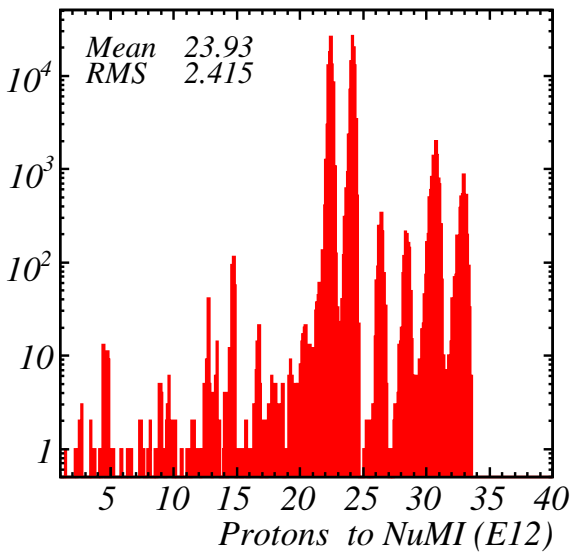


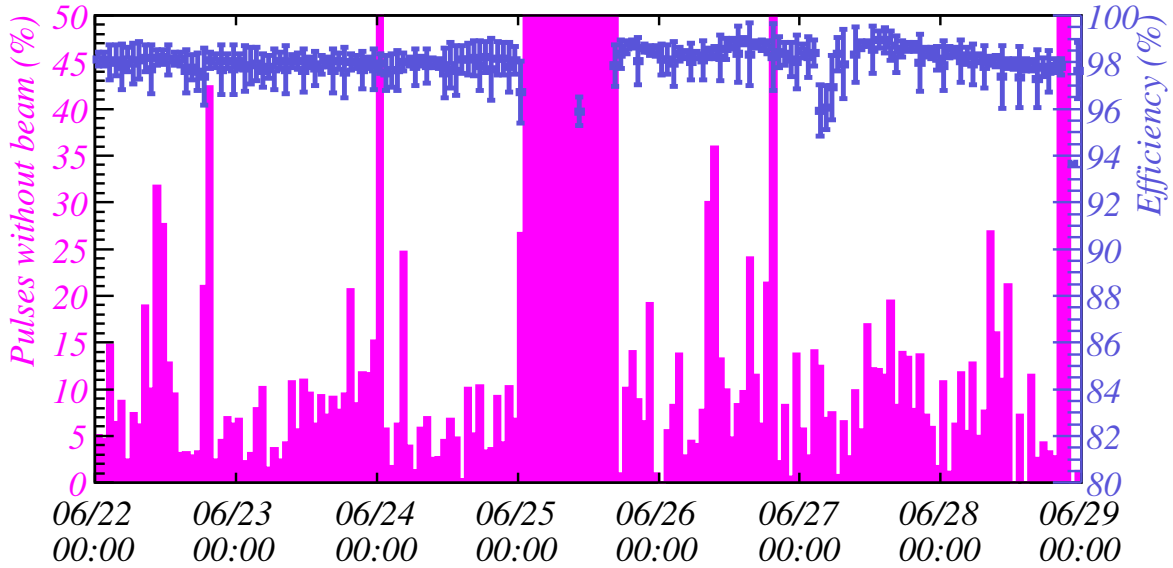


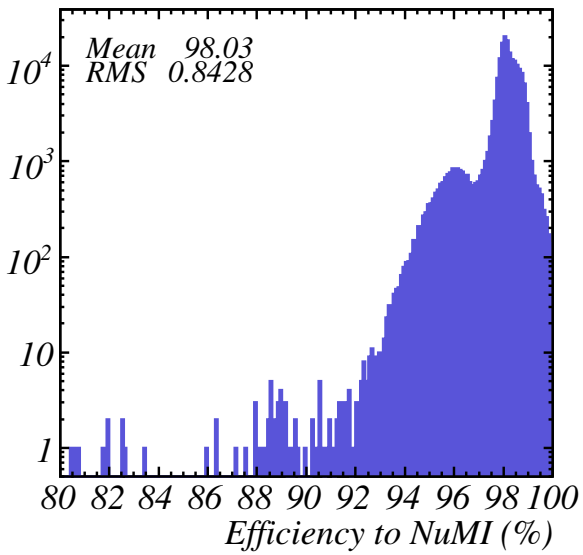
NuMI

P. Adamson
Accelerator Division
Fermilab



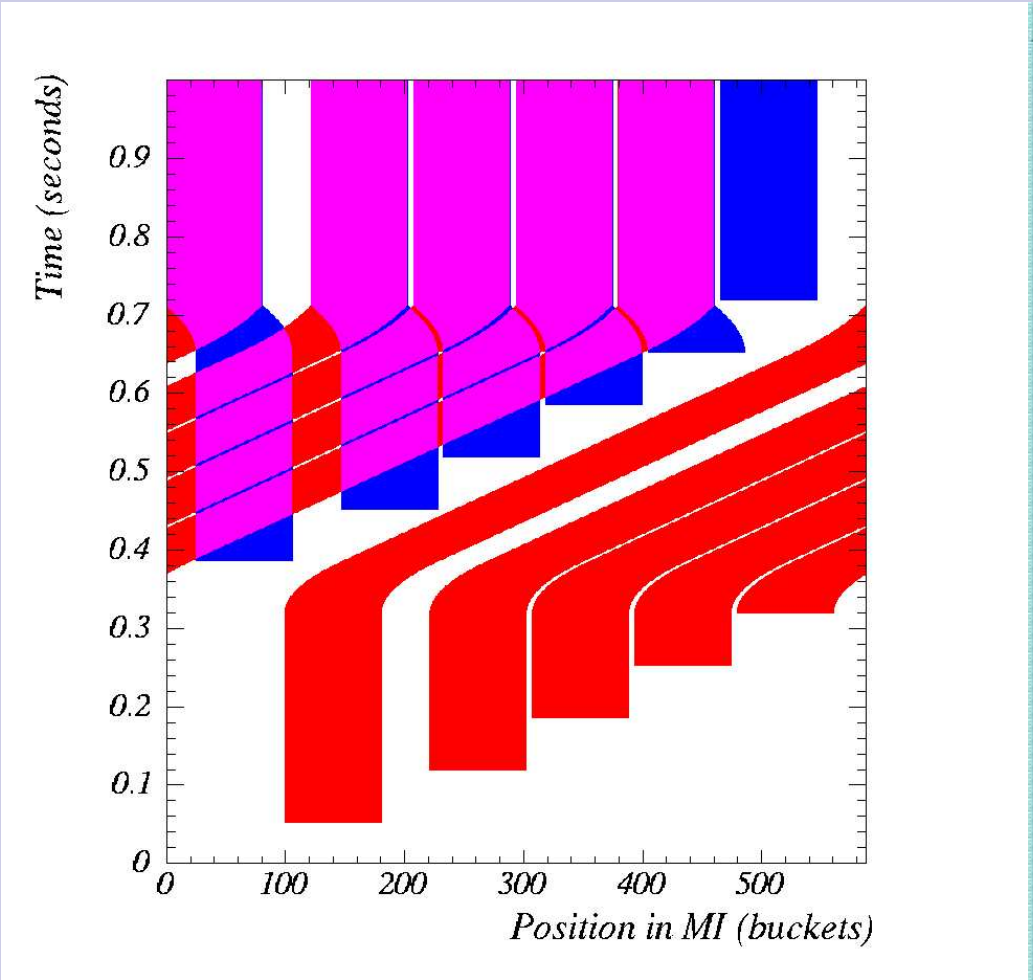


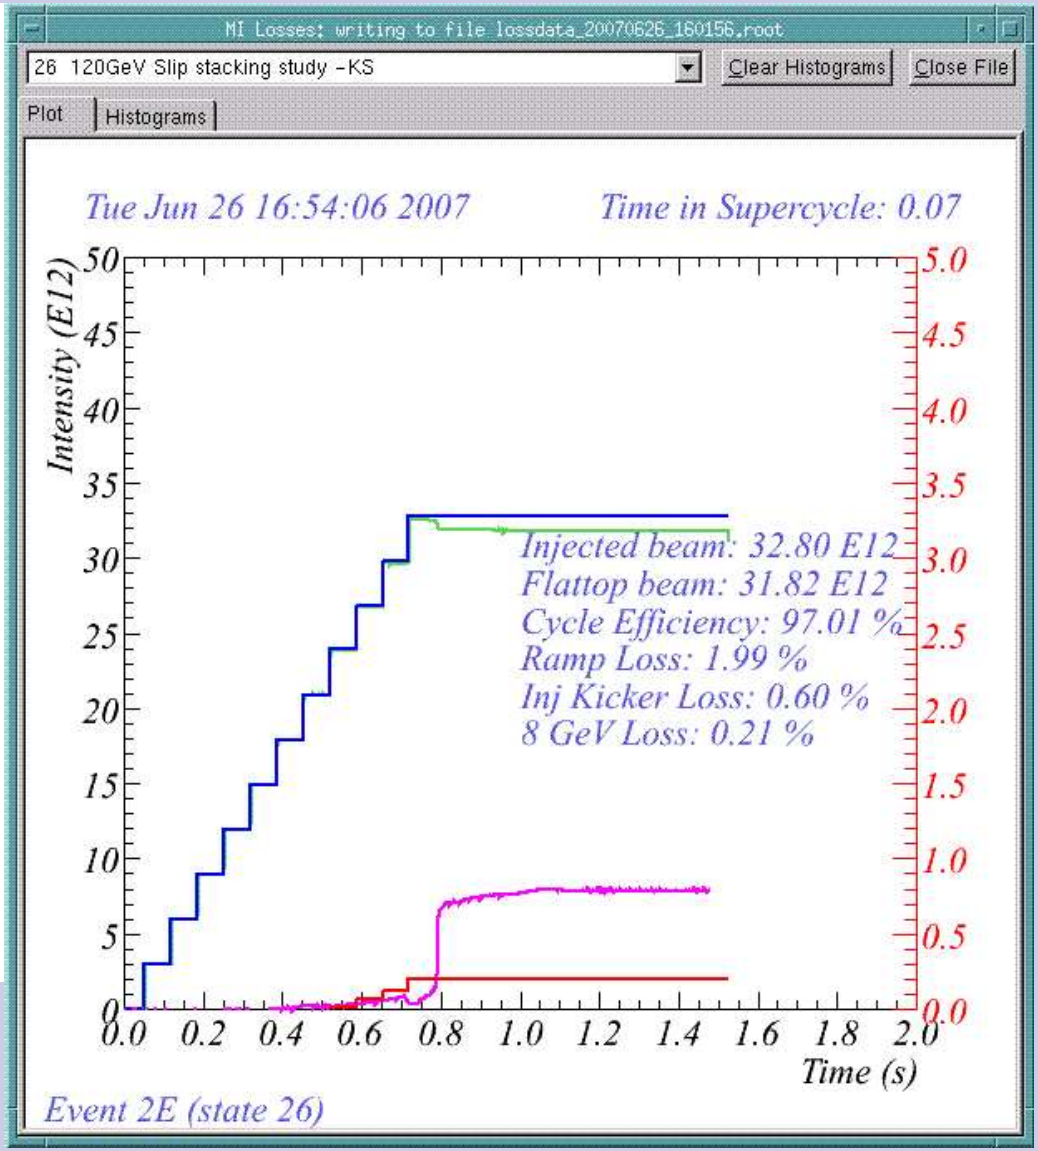




11-batch slip-stacking

P. Adamson
Accelerator Division
Fermilab





- Cycle efficiency getting close to current 2+5 mode for same overall efficiency

Issues

P. Adamson
Accelerator Division
Fermilab

- MI50U power supply
- MIRF 17 bias tunnel short
- Lognitudinal damper load is dead

Next month's victim

P. Adamson
Accelerator Division
Fermilab

Kiyomi Seiya
