

# Zachary Miller

- Member of the Condor Project in Madison, Wisconsin for 10 years
  - development and implementation of Condor's security features and policies
- campus outreach for UW's Center for High-Throughput Computing (CHTC)
  - working with many different UW departments and off-campus collaborators
  - help to develop the idea of Research Computing in a variety of non-CS fields.

# Rob Quick

- OSG Operations Coordinator
- Indiana University – 10 Years
  - Student Technology Consulting, Network Operations, Grid Operations
- OSG Operations Coordinator – 4 Years
  - OSG Executive Team
  - OSG Support Group
  - OSG Service Infrastructure
  - MyOSG, Resource Service Validation (RSV), Ticket Exchange
  - DOEGrids RA Agent

# Mats Rynge

- OSG Engagement team member
- OSG Match Maker and glideinWMS developer
- Works in the Pegasus Workflow Manager group at USC Information Sciences Institute

# Horst Severini

- Research Scientist in High Energy Physics at the University of Oklahoma since 1997
  - Has been working on ATLAS and Grid computing since 1999
- Grid Computing Coordinator at the Oklahoma Center for High Energy Physics (OCHEP)
  - In charge of computing at the OU part of the US ATLAS SouthWest Tier2 center
- Associate Director for Remote and Heterogeneous Computing at the OU Supercomputing Center for Education and Research (OSCER).
  - Grid Computing Support for OU
- outreach coordinator for DOSAR.
  - RA agent for the DOSAR VO.

# Jose Caballero

- OSG Outreach Coordinator for South America
- Not a computer scientist :(  
Physicist & Electronic Engineer
  - PhD in CMS
  - ATLAS member since I moved to Brookhaven National Lab.
- Developer for PanDA (another workload management system):
  - security
  - pilot submission system
  - end user support for other experiments in OSG
- DOE Agent
