

# MHV @ 30: Amplitudes and Modern Applications

March 16-19, 2016

Fermi National  
Accelerator Laboratory  
Batavia, Illinois

The workshop will feature presentations on the latest progress in the understanding of amplitude properties in gauge theories and in gravity. It will cover advances on both formal and applied sides and is being organized on the occasion of 30 years of MHV amplitudes.

#### Scientific Organizing Committee

Luis Alday (Oxford)  
Zvi Bern (UCLA)  
Ruth Britto (Trinity College, Dublin)  
Freddy Cachazo (Perimeter Inst.)  
John Campbell (Fermilab)  
Lance Dixon (SLAC)  
Michelangelo Mangano (CERN)  
Stephen Parke (Fermilab)  
Tomasz Taylor (Northeastern)  
Anastasia Volovich (Brown)

#### Local Organizing Committee

Melody Saperston (Fermilab)  
Olivia Vizcarra (Fermilab)  
Suzanne Weber (Fermilab)
