LArSoft Steering Group Meeting
June 26, 2015

On-going outreach efforts / activity

- Since the last Steering Group Meeting
  - ICARUS
    - Invited to the ICARUS Offline Workshop at CERN, week of July 20
    - Will present LArSoft project, architecture, coding philosophies (1 hour time slot)
    - Discuss technical details of integrating ICARUS code into LArSoft, other topics
  - FLUKA
    - Used by ICARUS for detector simulation
    - Spoke to Paola Sala about integrating with LArSoft
    - Agreed to technical principles
      - Share common input and output data structures, work from there
    - Will discuss technical details while at CERN in July
    - Integration will require work from FLUKA (Paola) and LArSoft sides (ICARUS?)
  - WA105: Silvestro di Luise
    - Attempted to install and build LArSoft code
    - Minor problem encountered (width of time-zone name..)
    - Ran 'lar'. Now ready for next steps.
