

Calibration Status

Thomas Coan
Southern Methodist University

- Modest sized group
 - PI (TC)
 - P-doc (Enrique Arrieta-Diaz)
 - Grad Student (Biao Wang)

- DOE funded (intensity frontier)

SMU Landscape

- NOvA is primary commitment
 - TC is co-convenor of calibration group
 - Slow control expertise (APD cooling)
 - Data/MC computing production responsibility

- Extensive local computing infrastructure
 - 10k cores
 - OSG member
 - 9k cores, 6 GB/ea
 - No user fee

- No-cost machine shop

Dune Plans

- Calib role within DUNE
 - Still thinking...
 - Radioactive sources ??

Backup
