

Michael Woods, CLSO, is the Laser Safety Officer at the SLAC National Accelerator Laboratory. He is an Engineering Physicist, with a B.Sc. in Engineering Physics from Queen's University in Kingston, Ontario, Canada and a Ph.D. in High Energy Physics from the University of Chicago. He has been at SLAC for 28 years – initially as a postdoc, then as a staff physicist in the Accelerator Department and then for 15 years as a researcher in experimental particle physics. He has spent 15 years utilizing high power laser systems for photo-injectors, Compton polarimeters and electron beam diagnostics. He became SLAC LSO in 2008. He is a member of the ANSI Z136 ASC, SSC-1, SSC-8, TSC-4 and TSC-5 committees and is Secretary for TSC-4. He is a member of the Board of Directors for the Laser Institute of America and is chair of [DOE's EFCOG laser safety task group](#).
