

Major Edward Kelly serves in the US Air Force as a Health Physicist / Bioenvironmental Engineer. Presently, he is assigned to the AF Research Laboratory (AFRL) at the Tri-Service Research Laboratory at Fort Sam Houston, TX, since August 2014. As the AF Surgeon General (SG) representative to the American Standards Committee for ANSI Z136, he participates in the following committees - ASC, SSC-1, SSC-4, SSC-6, TSC-1, TSC-2, and TSC-4. Prior to assignment to the AFRL, he served as Chief, Radiation Program Compliance at the AF Radioisotope Committee (HQ AF, Pentagon) where he represented the AF SG for directed energy safety and health programs to include laser and radio frequency radiation safety.
