

OSG All Hands Consortium Meeting

Open Science Grid

Contribution ID: 7

Type: **not specified**

(no title)

Wednesday, 5 March 2008 10:30 (1h 30m)

The panelists on this session will talk about their use of the OSG for science and research and future prospects and needs. There will be 10 minute introductions from each of the members of the panel:

<p> Structural Biology Grid Portal and Applications: Ian Stokes-Rees, Harvard University
 Text Mining Biomedical Literature: Catherine Blake, UNC School of Information and Library Science
 Prospects for science at the LHC/CMS: Chris Tully, Princeton University
 Nuclear Physics and the OSG: Tim Hallman, BNL
 LIGO: Warren Anderson, U Wisconsin, Milwaukee
 Heisenberg Spin Chains - Simulations and Experiments: Bruno Goncalvez, Emory College

Session Classification: Prospects for Science on OSG
