

Far Detector High Voltage Working Group

Glenn Horton-Smith (KSU), Dr. Emilija Pantic (UCLA), Mr. Shuoxing Wu (ETH Zurich)

- “Cross-cutting” group. Relevant working groups and project elements include electronics, detector controls, TPC, others.
- Charge official wording is being vetted. Has to do with understanding and communicating requirements, following development of state of the art.
- Meeting time set as ~~10AM~~ 9AM CT Friday, every other week, starting this Friday. (E-mail later today.)
- So far have had one “cross-cutting” inquiry from radiopurity group regarding cathode material.
