

# LoopFest XV

## Monday, 15 August 2016

### Session II - 120 Clemens Hall (10:55 - 13:00)

-Conveners: Lance Dixon

time	[id] title	presenter
10:55	[20] Evaluation of the general 3-loop vacuum Feynman integral	Prof. MARTIN, Stephen
11:20	[21] Finite fields and progress on four loop form factors	VON MANTEUFFEL, Andreas
11:45	[22] New numerical techniques for two and threeloop integrals and applications	FREITAS, Ayres
12:10	[23] Towards a numerical unitarity approach at two loops in QCD	JAQUIER, Matthieu
12:35	[62] Massive operator matrix elements at 3-loop order for deep-inelastic scattering	BEHRING, Arnd
