

Architecture review status report

A one slide report — at last!

Gianluca Petrillo, Saba Sehrish

Fermi National Accelerator Laboratory

LArSoft Coordinators' Meeting, December 22nd, 2015

Status: if it's not 3D, we don't want it!

Modules in queue for review:

- `Track3DKalmanHit` being explored by Saba; planning for:
 - modularization of code structure
 - factorization, interoperability and the usual suspects
- `Cluster3D` being explored by Gianluca
- `ShowerReco3D`: waiting for transfer into LArSoft (from LArLite)

First results in middle January...
