

Workshop on Cryogenic Operations

Tuesday, 25 October 2016 - Thursday, 27 October 2016

Wilson Hall

Book of Abstracts

Contents

ARIEL e-linac 2K Cryogenic System: First Operational Experience 40	1
LHC Cryogenics availability and helium management from Run 1 to Run 2 41	1
SNS Helium Cryogenic Plant Instrument and Controls Experience and Future Considerations 42	1
Cryogenics of the Target at ESS 43	1
Oil contamination of cryogenic systems 44	1
Oil contamination of cryogenic systems 45	1
Cleaning and consolidation of the CMS helium refrigerator after hydrocarbon contamination 46	1
Cleaning and consolidation of the CMS helium refrigerator after hydrocarbon contamination 47	2
RHIC COLLIDER Operations 48	2
Vibration monitoring of the rotating machines of the CERN cryogenic systems 49	2
MicroBooNE Experience: Operations of the cryogenic system for the Fermilab MicroBooNE Liquid Argon 50	2
35 ton LAr Cryostat Experience - Run 2 and strategies to prevent inadvertent purity degradation 51	2
ICARUS Operations Experience 52	2
Asphyxiation due to oxygen depletion atmospheres 53	2
Comparison of Different ODH Analysis Techniques 54	2
Oxygen Deficiency Sensor Test Results 55	3
Membrane cryostat for cryogenic liquid 56	3
Turbo-Brayton (as a solution to refrigerate LAr calorimeter) 57	3
Cryogenic Cooling 58	3
SLAC , LCLS-II (Linac Coherent Light Source II) X-ray free-electron laser 59	3

GENERAL DESIGN TESTING AND OPERATION OF SC MAGNET SYSTEMS - SPHENIX DETECTOR 60	3
ESS high beta cavity horizontal Test in a Vertical Cryostat 61	3
Fermilab VMTF Operations Experience 62	3
Helium Pump Commissioning Experience 63	4
LCLS-II 64	4
ESS 65	4
Vibration monitoring of the rotating machines of the CERN cryogenic systems Mr. Olivier Pirotte 66	4
Workshop Dinner - Two Brothers Brewery 74	4
Cryogenic Infrastructure at TRIUMF: Overview of the Upgrades 75	4
Upgrade of TRIUMF's Liquid Nitrogen Infrastructure 76	4
Cryoplants at Helmholtz Zentrum Berlin 77	4
General design testing and operation of SC magnet systems - Electron Lenses 78	5
SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 704MHz 5-cell elliptical SRF CAVITY at 2.0K 79	5
Study of sudden loss of vacuum in a tube cooled by liquid helium 80	5
Reliability of Cryogenic Valves evaluated after revision of a 30-years old plant 81	5
General design testing and operation of SC magnet systems - RHIC collider operations 82	5
Vibration monitoring of the rotating machines of the CERN cryogenic systems 83	5
TBA 84	6
TBA 85	6
Design of Cryogenic System for SBN Near Detector 86	6
Investigations of Purge and Cooldown Options for Liquid Argon Cryostats through CFD Analysis 87	6
Overview of the Long-Baseline Neutrino Facility cryogenic system 88	6
Overview of the cryogenic system for the ProtoDUNE Single Phase and Dual Phase proto- types at CERN 89	6
Low Energy RHIC electron Cooling (LEReC) 704MHz SRF cavity superfluid thermal analy- sis using ANSYS 17 90	7
ESS high beta cavity horizontal Test in a Vertical Cryostat 91	7
Operational Experience of the Fermilab Vertical Test Facilities 92	7

SNS Cryogenic Test Facility Kinney Vacuum Pump Commissioning and Operation at 2 K 93	7
LCLS-II cryogenic system commissioning 94	7
LHC Cryogenics Operation: post-LS1 restart and main achievements of Run 2 95	7
Helium Liquefier Plant at Cryo-Technology Division (CrTD) 96	8
Shaft Seal Systems of Rotary Equipment in Cryogenic Plants 97	8
Cryogenic controls for the RAON SRF test facility 98	8
Performance Mapping of the CLS SRF Cryoplant 99	8
Design of a Multiple-function Cryogenic System for Superconducting Devices in SSRF Up- grade 100	8
Commissioning of the cryogenic system for SRF Test Facility of RAON 101	8
SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 56MHz SRF CAVITY at 4.5K 102	8
SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 112MHz SRF CAVITY at 4.5K 103	8
Commissioning of the cryogenic system for SRF Test Facility of RAON 106	9
Helium Liquefier Plant at Cryo-Technology Division (CrTD) 107	9
Shaft Seal Systems of Rotary Equipment in Cryogenic Plants 108	9
Cryogenic controls for the RAON SRF test facility 109	9
Performance Mapping of the CLS SRF Cryoplant 110	9
Design of a Multiple-function Cryogenic System for Superconducting Devices in SSRF Up- grade 111	9
Commissioning of the cryogenic system for SRF Test Facility of RAON 112	9
SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 56MHz/112MHz SRF CAVITY at 4.5K 113	10
SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 112MHz SRF CAVITY at 4.5K 114	10
Reliability of Cryogenic Valves evaluated after revision of a 30-years old plant 115	10
Annual Maintenance of CHL2 Compressors 116	10
Test 117	10
TBA 120	11
PIP-II Project Overview 121	11
LBNF Talk 122	11

Summary 123	11
Summary 124	11
Summary 125	11
Poster Session Summary 126	11
Poster Session Summary 127	11

Operations and Maintenance Experience of LHe Systems (I) / 40

ARIEL e-linac 2K Cryogenic System: First Operational Experience

Operations and Maintenance Experience of LHe Systems (I) / 41

LHC Cryogenics availability and helium management from Run 1 to Run 2

Author: Gerard FERLIN¹

¹ *CERN*

Operations and Maintenance Experience of LHe Systems (I) / 42

SNS Helium Cryogenic Plant Instrument and Controls Experience and Future Considerations

Author: Matthew Howell¹

¹ *Oak Ridge National Laboratory*

Operations and Maintenance Experience of LHe Systems (I) / 43

Cryogenics of the Target at ESS

44

Oil contamination of cryogenic systems

Operations and Maintenance Experience of LHe Systems (I) / 45

Oil contamination of cryogenic systems

Operations and Maintenance Experience of LHe Systems (I) / 46

Cleaning and consolidation of the CMS helium refrigerator after hydrocarbon contamination

47

Cleaning and consolidation of the CMS helium refrigerator after hydrocarbon contamination

48

RHIC COLLIDER Operations

49

Vibration monitoring of the rotating machines of the CERN cryogenic systems

Operations and Maintenance Experience of LAr Systems (I) / 50

MicroBooNE Experience: Operations of the cryogenic system for the Fermilab MicroBooNE Liquid Argon

Operations and Maintenance Experience of LAr Systems (I) / 51

35 ton LAr Cryostat Experience - Run 2 and strategies to prevent inadvertent purity degradation

Operations and Maintenance Experience of LAr Systems (I) / 52

ICARUS Operations Experience

Safety / 53

Asphyxiation due to oxygen depletion atmospheres

Safety / 54

Comparison of Different ODH Analysis Techniques

Safety / 55

Oxygen Deficiency Sensor Test Results

Operations and Maintenance Experience of LAr Systems (II) / 56

Membrane cryostat for cryogenic liquid

Operations and Maintenance Experience of LAr Systems (II) / 57

Turbo-Brayton (as a solution to refrigerate LAr calorimeter)

Operation of SRF & SCMSystems (I) / 58

Cryogenic Cooling

Operation of SRF & SCMSystems (I) / 59

SLAC , LCLS-II (Linac Coherent Light Source II) X-ray free-electron laser

Operation of SRF & SCMSystems (I) / 60

GENERAL DESIGN TESTING AND OPERATION OF SC MAGNET SYSTEMS - SPHENIX DETECTOR

61

ESS high beta cavity horizontal Test in a Vertical Cryostat

62

Fermilab VMTF Operations Experience

63

Helium Pump Commissioning Experience

64

LCLS-II

65

ESS

66

Vibration monitoring of the rotating machines of the CERN cryogenic systems Mr. Olivier Pirotte

74

Workshop Dinner - Two Brothers Brewery

Poster Session I / 75

Cryogenic Infrastructure at TRIUMF: Overview of the Upgrades

Poster #: 1

Poster Session I / 76

Upgrade of TRIUMF's Liquid Nitrogen Infrastructure

Poster #: 2

Poster Session I / 77

Cryoplants at Helmholtz Zentrum Berlin

Poster #: 3

Poster Session I / 78

General design testing and operation of SC magnet systems - Electron Lenses

Poster #: 4

Poster Session I / 79

SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 704MHz 5-cell elliptical SRF CAVITY at 2.0K

Poster #: 5

Poster Session I / 80

Study of sudden loss of vacuum in a tube cooled by liquid helium

Poster #: 6

81

Reliability of Cryogenic Valves evaluated after revision of a 30-years old plant

Operations and Maintenance Experience of LHe Systems (II) / 82

General design testing and operation of SC magnet systems - RHIC collider operations

Operations and Maintenance Experience of LHe Systems (II) / 83

Vibration monitoring of the rotating machines of the CERN cryogenic systems

Poster Session II / 84

TBA

Poster #: 8

Poster Session II / 85

TBA

Poster #: 9

Poster Session II / 86

Design of Cryogenic System for SBN Near Detector

Poster #: 10

Poster Session II / 87

Investigations of Purge and Cooldown Options for Liquid Argon Cryostats through CFD Analysis

Poster #: 11

Poster Session II / 88

Overview of the Long-Baseline Neutrino Facility cryogenic system

Poster #: 12

Poster Session II / 89

Overview of the cryogenic system for the ProtoDUNE Single Phase and Dual Phase prototypes at CERN

Corresponding Author: johan.bremer@cern.ch

Poster #: 13

Poster Session II / 90

Low Energy RHIC electron Cooling (LEReC) 704MHz SRF cavity superfluid thermal analysis using ANSYS 17

Poster #: 14

Operation of SRF & SCMSystems (I) / 91

ESS high beta cavity horizontal Test in a Vertical Cryostat

Operation of SRF & SCMSystems (I) / 92

Operational Experience of the Fermilab Vertical Test Facilities

Operation of SRF & SCMSystems (I) / 93

SNS Cryogenic Test Facility Kinney Vacuum Pump Commissioning and Operation at 2 K

94

LCLS-II cryogenic system commissioning

Operation of SRF & SCM Systems (II) / 95

LHC Cryogenics Operation: post-LS1 restart and main achievements of Run 2

Corresponding Author: gerard.ferlin@cern.ch

96

Helium Liquefier Plant at Cryo-Technology Division (CrTD)

97

Shaft Seal Systems of Rotary Equipment in Cryogenic Plants

98

Cryogenic controls for the RAON SRF test facility

99

Performance Mapping of the CLS SRF Cryoplant

100

Design of a Multiple-function Cryogenic System for Superconducting Devices in SSRF Upgrade

101

Commissioning of the cryogenic system for SRF Test Facility of RAON

102

SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 56MHz SRF CAVITY at 4.5K

103

SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 112MHz SRF CAVITY at 4.5K

106

Commissioning of the cryogenic system for SRF Test Facility of RAON

Poster Session III / 107

Helium Liquefier Plant at Cryo-Technology Division (CrTD)

Poster #: 16

Poster Session III / 108

Shaft Seal Systems of Rotary Equipment in Cryogenic Plants

Poster #: 17

Poster Session III / 109

Cryogenic controls for the RAON SRF test facility

Poster #: 18

Poster Session III / 110

Performance Mapping of the CLS SRF Cryoplant

Poster #: 19

Poster Session III / 111

Design of a Multiple-function Cryogenic System for Superconducting Devices in SSRF Upgrade

Poster #: 20

Poster Session III / 112

Commissioning of the cryogenic system for SRF Test Facility of RAON

Poster #: 21

Poster Session III / 113

SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 56MHz/112MHz SRF CAVITY at 4.5K

Poster #: 22

114

SRF Operating experience: Cavity detuning from helium microphonics/vibration pulses - 112MHz SRF CAVITY at 4.5K

Poster #: 23

Poster Session I / 115

Reliability of Cryogenic Valves evaluated after revision of a 30-years old plant

Poster #: 7

Poster Session II / 116

Annual Maintenance of CHL2 Compressors

Corresponding Author: radovic@jlab.org

Poster #: 15

117

Test

Poster # 1
