ALL EXPERIMENTERS' MEETING

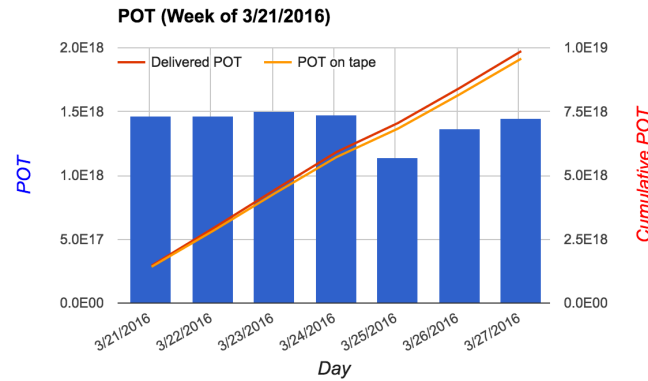

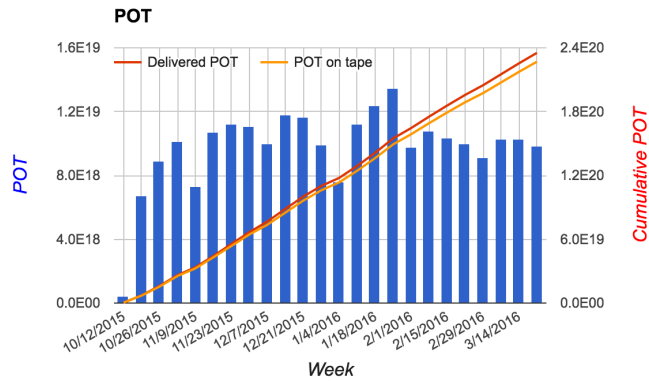

3/28/2016

DAQ Uptime

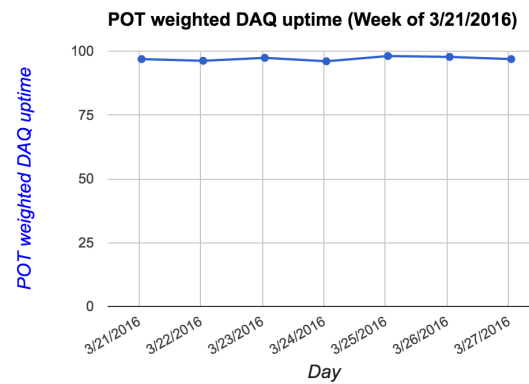

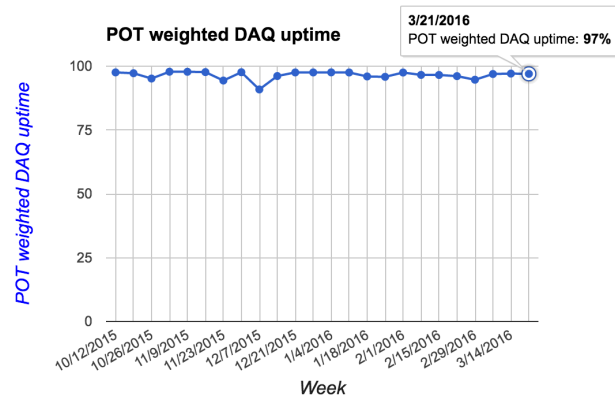

- Excellent DAQ running the past seven days.
- DAQ uptime is 96% for this week, compared to 97-98% previous weeks.
- We've had a slight drop in uptime due to needing to restart runs because of online monitor issues.

POT Delivered / Recorded

- Weekly POT delivered: 0.99×10^{19}
- Weekly POT recorded: 0.96×10^{19}
- 97.0% POT weighted uptime this week.

Summary

- Smooth week of data taking.
- Consistently good DAQ uptime, minus minor online monitor issues.
- POT weighted uptime last week was 97.1% vs. 97.0% this week.
