

Welcome to the *Art* Users Meeting 2016

Chris Green

Art Users Meeting 2016

17th June, 2016

Goals

- To provide a forum for the *art*-using community to share their experiences using *art* and exchange ideas for same.
- To communicate information of note about the *art* framework to the wider *art*-using community.
- To provide an opportunity for *art*-users to interact with the art framework developers and engage face-to-face on issues of interest to them.

Schedule Overview

- *Art* team communications: news and new features.
- User experiences.
- Future directions.
- Closing remarks.
- Roving experts.

Notes

- Refreshments will be available during the morning break directly outside the lecture hall.
- Food and drink are *not* permitted inside the lecture hall.
- Lunch is planned for 1'20" – we will endeavor to keep to time on our end; please be ready to start the afternoon session promptly at 13:15 CDT.
- The roving experts session is *after* closing remarks, to allow people to leave for transport, *etc.* while allowing for a reasonable experts session for those interested and able to stay.

Welcome from the Scientific Computing Division Head, Dr. Panagiotis Spentzouris.
