Weekly POT delivered: 1.33×10^{19}

Weekly POT recorded: 1.28×10^{19}

POT-weighted uptime for this week: 96.7%

Other News

- Slow monitoring server load issues are continuing.
 - Lost monitoring (incl. reboots) on Sat, Sun & Mon.
 - Seems to be caused by RAID resets.
 - System is still under warranty \Rightarrow in contact with KOI for possible replacement of the RAID card.
 - Have moved some slow monitoring processes to near2; a full move is in progress.
- Last week was a new record for POT delivered/recorded at μ BooNE!
