

Derek's **super short** Singularity Site Install Guide

Derek Weitzel

Simple command to install

- If you have OSG repos enabled, it's as easy as:

```
$ yum install --enablerepo=osg-upcoming singularity
```

- In upcoming repo until next OSG release (Ask Brian Lin for dates!)

Verify Install

- Just a simple python test (Tab is your friend!):

```
$ singularity exec /cvmfs/singularity.opensciencegrid.org/  
library/python:latest python -V  
Python 3.6.0
```

- Thats it!
