

E906/SeaQuest Report

Michelle M. Medeiros
for the SeaQuest Collaboration

Jan. 09, 2017.

Computing usage.

General status.

- Tested target cool down before the holidays.
- D2 and H2 targets are now stable.
- Target table motion issue has been fixed.
- Updated mapping that includes new chamber cabling.
- Successfully tested new DAQ and new decoder using cosmic rays.

Ready to resume data taking.
