

# Prototype Cryomodule Workshop

## Thursday, 12 January 2017

### pCM String Assembly - CEBAF Center Room F113 (08:00 - 12:00)

-Conveners: Kirk Davis; Tug Arkan

time	[id] title	presenter
08:00	[2] Beamline purge during assembly	
08:45	[3] Differences in assembly techniques for string assembly at FNAL and JLab and possible correlations to CM performance	
09:45	Break	
10:00	[4] Issues identified during pCM assembly that need to be improved –path forward, lessons learned	
11:00	[5] Copper plated components – bare spots, oxidation and cleaning	
11:30	[6] Hardware cleaning techniques at each lab
