

# NuSTEC 2016

## (+) **White paper:**

- important initiative and collaborative effort of many NuSTEC board members (13) + many others
- presented at the December INT Workshop  
<http://www.int.washington.edu/PROGRAMS/16-63w/>
- still work in progress
- once finished, what to do with it?

## (-) **Projects:**

- insufficient motivation to bind our research projects/ideas to NuSTEC
- can NuSTEC exist without projects?
- New members: important to achieve NuSTEC goals

(+/-) still no web page: first (not yet accessible) version prepared by Teppei

(0) No NuSTEC workshops in 2016: there were enough other meetings.

# NuSTEC 2017

- White paper completion
- 2<sup>nd</sup> NuSTEC Training in Neutrino Nucleus Scattering Physics
  - November 2017, Fermilab
- IPPP (Institute for Particle Physics Phenomenology) Workshop  
co-organized by NuSTEC
  - April 2017, Durham
- NuInt
  - June, 2017, Toronto
- Functioning web page ?
- Projects ???

# NuSTEC 2018

- Workshop on neutrino-nucleon interaction physics
  - new experiments needed?
  - now or “never”...
