David Martinez

Illinois Institute of Technology

March 27th 2017

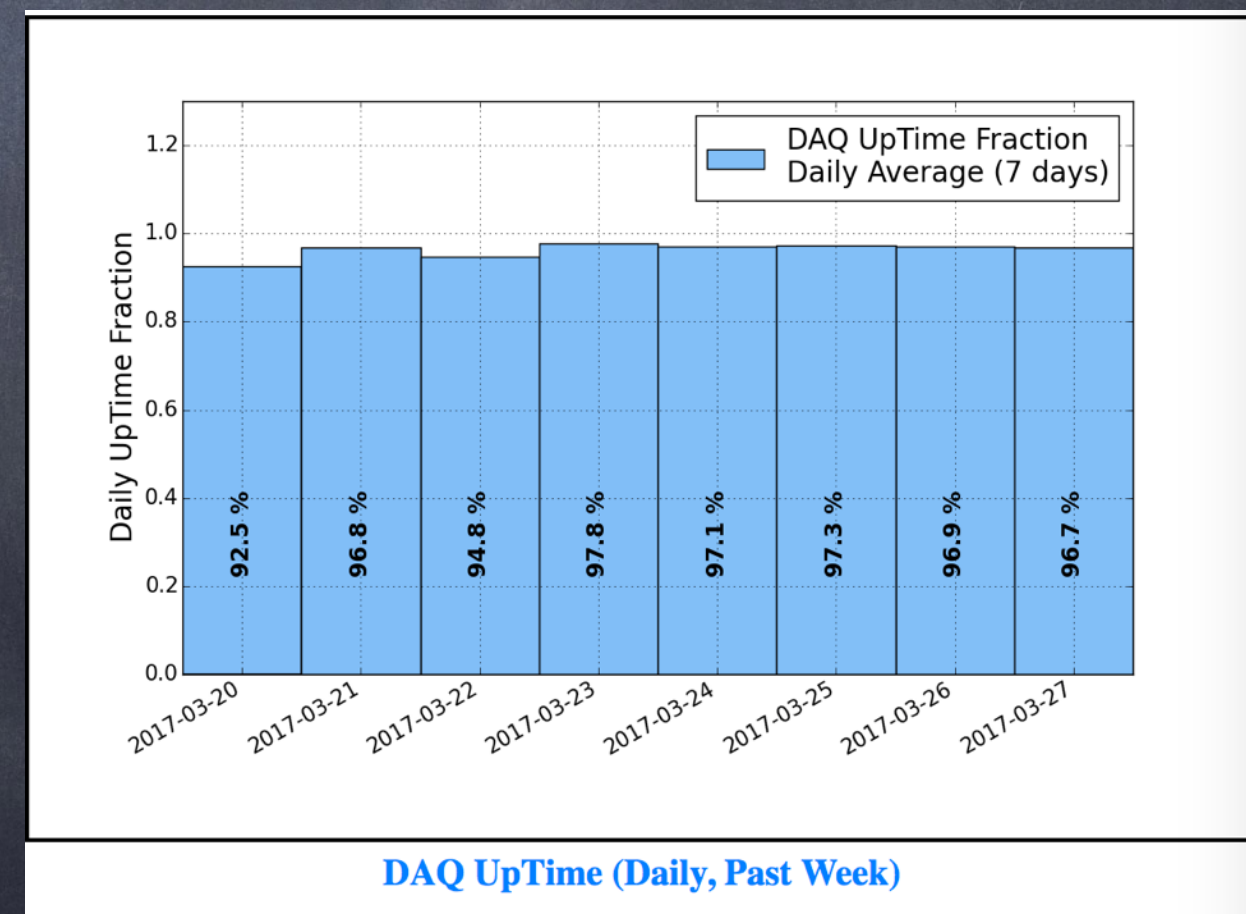

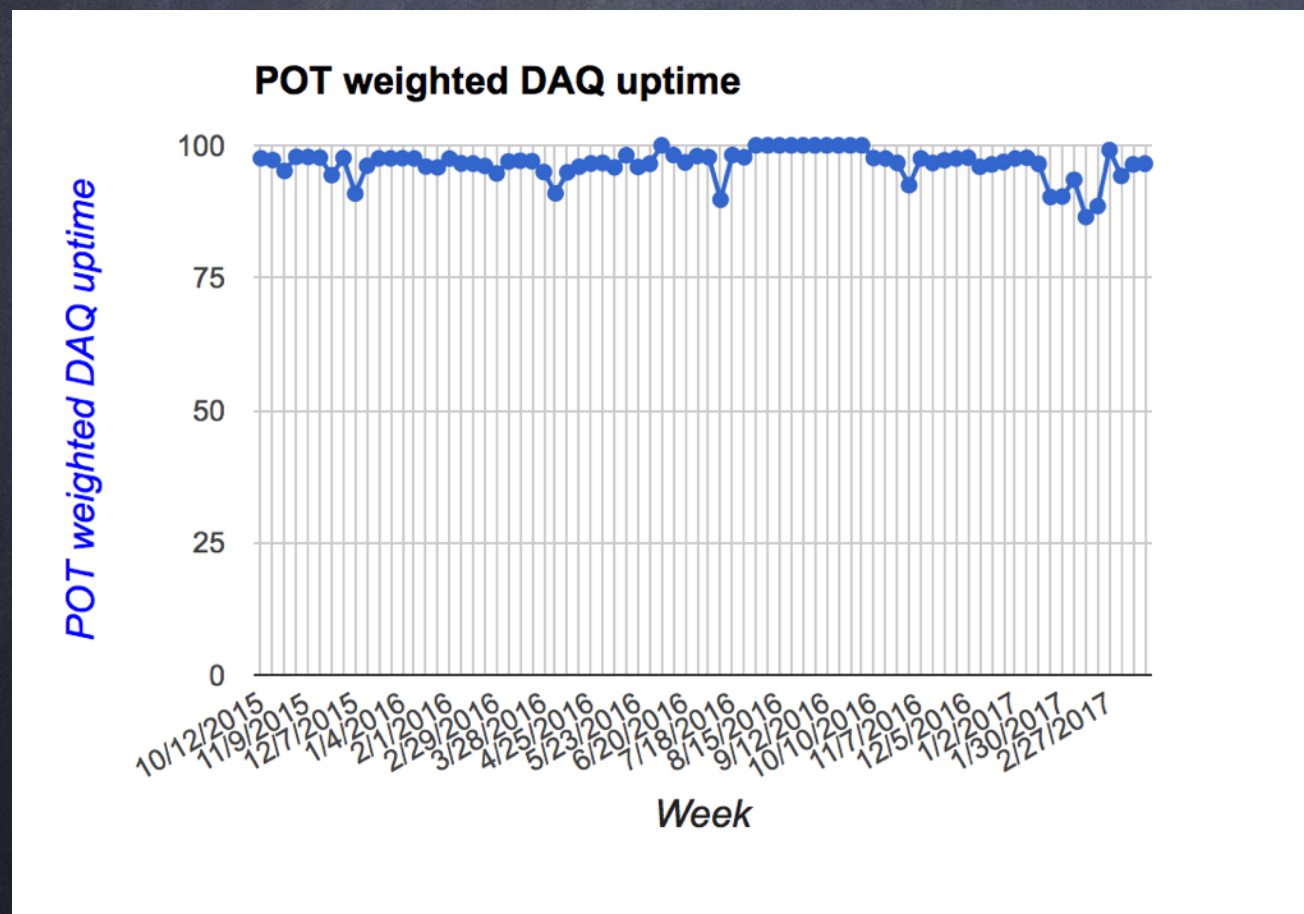

AEM meeting.

DAQ Uptime (week of March 20th): 96.6 %.

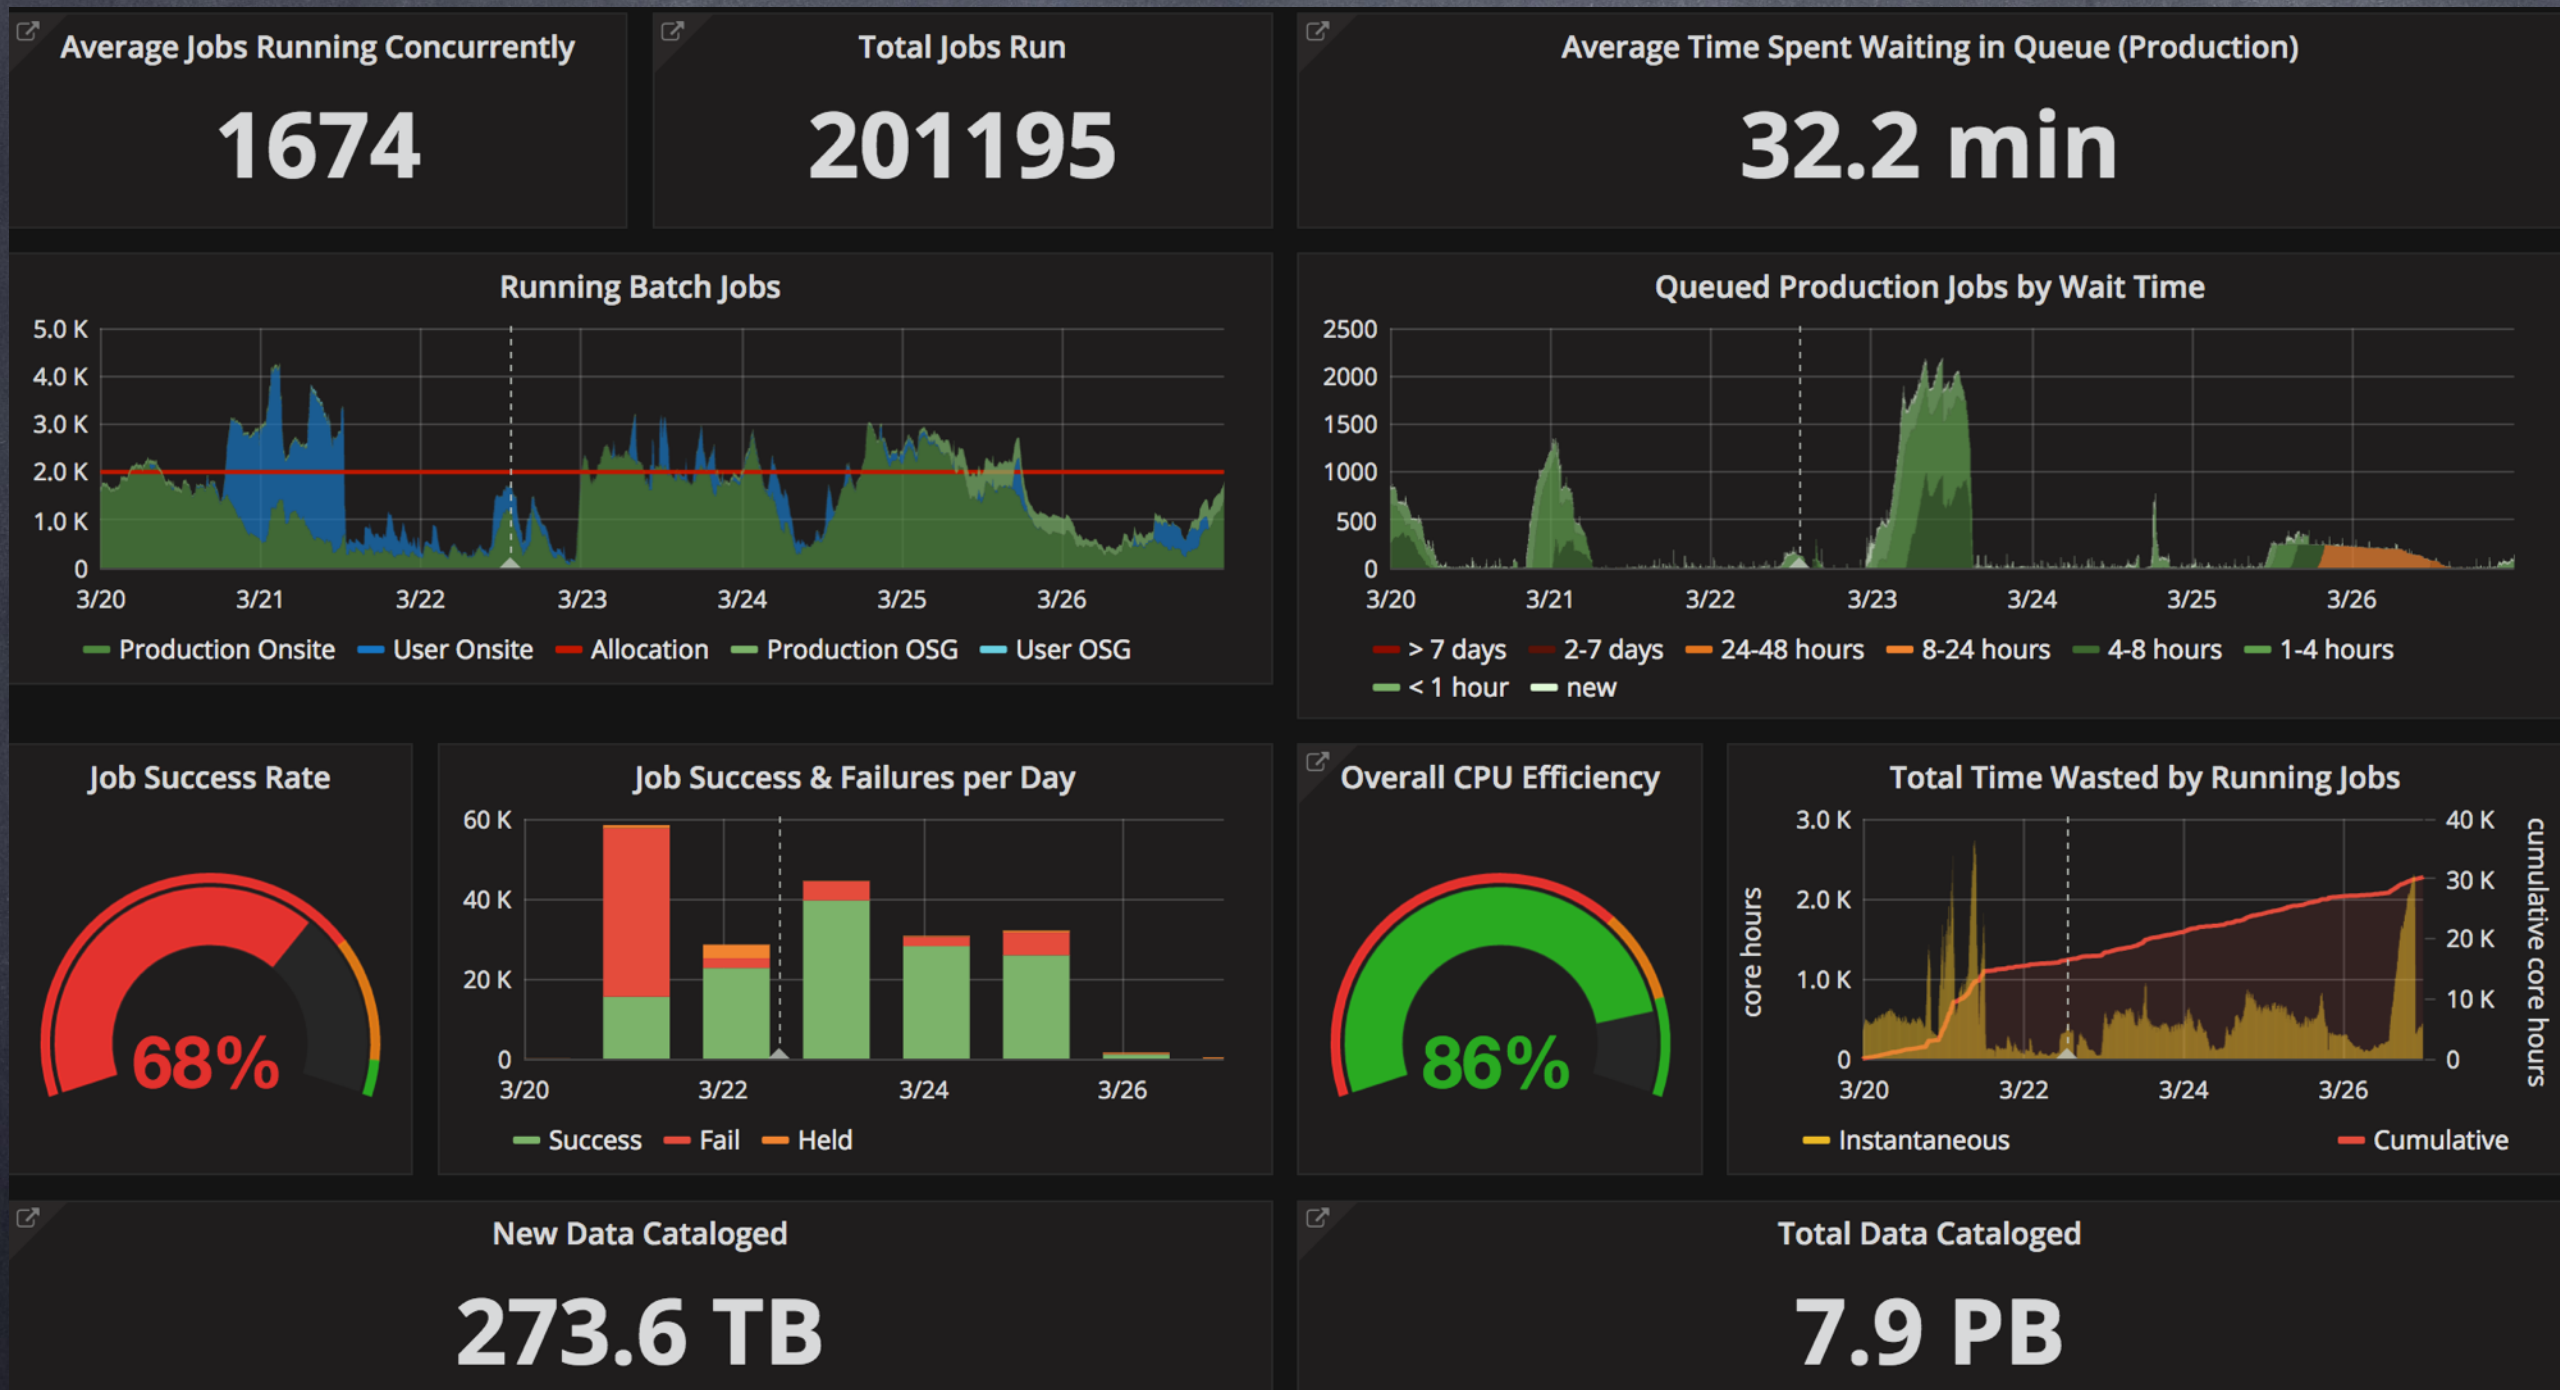

BNB Uptime: 93.9 %

POT Delivered: 5.6 E20 (9.2 E18 this week)

POT Recorded: 5.3 E20 (8.9 E18 this week)

Computing Summary

Summary

- We have been running stable at our nominal drift HV 70 kV.
- Successfully CRT top panel installation and Operational Readiness Clearance (ORC)!
- CRT top panel commissioning is going pretty well and we expect to finish it early this week.
