

E906/SeaQuest Report

Michelle M. Medeiros
for the SeaQuest Collaboration

Mar. 27, 2017.

Computing usage.

General status.

- Chamber 1 is back in its place and was turned on last Thursday after flammable gas flowing was finished.
- Replaced some level shifter boards and TDCs last week (including the QIE TDC).
- Working on getting more disk space for our DAQ.
- Fixed a hodoscope PMT that was dead since this Saturday and we're working on fixing another one that's harder to reach.

Taking good data with liquid targets.
