

Physics sessions – draft for discussion at Coordinators Meeting, 2017 July 14

Starting roster of sessions similar to last meeting, though themes of each will vary.

Core physics sessions:

- * **LBL** (org. Bass, Sanchez, Cherdack, Pascoli)
- * **LBL+ND** (org. several)
- * **Sim/Reco 1**, likely joint with one or more other WGs (org. several)
- * **Sim/Reco 2** (org. Himmel, Qian, Yang)
- * **Low-E/SNB 1** (org. Gil-Botella, Scholberg, Friedland)
- * **Low-E/SNB 2** (org. Gil-Botella, Scholberg, Friedland)
- * **BSM** (org. Sousa, Yu)
- * **NDK/atmos/cosmo** (org. several)

Plus:

- * **Working session: TDR Physics Volume editors + all Physics conveners**
(org. De Roeck, Patterson, Urheim, Worcester)
→ discuss contributed high-level outlines, key plots/tables, workflow

Other sessions beyond the above that have overlap with Physics:

- * **Photon Detector TF**
- * **ND Concept Study sessions**
