

2017 US LHC Users Association Meeting

Friday, November 3, 2017

Young Physicists' Lightning Round Session 2 - CDF Big Room in Building 327 (9:50 AM - 11:00 AM)

time	[id] title	presenter
9:50 AM	[61] Search for low mass resonances decaying to quark pairs with the CMS detector at 13 TeV	MANTILLA SUAREZ, Cristina Ana
10:00 AM	[62] Phase-2 pixel upgrade simulations	Mr NAZARIO, Andres
10:10 AM	[64] Azimuthally differential pion femtoscopy relative to the second and third harmonic in Pb-Pb collisions at $\sqrt{s_{NN}} = 2.76$ TeV from ALICE	SALEH, Mohammad
10:20 AM	[65] Evidence for the Higgs boson decay to a bottom quark-antiquark pair	WANG, Sean Jiun
10:30 AM	[72] Measurement of the calorimeter response to single hadrons with ATLAS at 13 TeV	Mr OLSSON, Joakim
10:40 AM	[67] Ultra-peripheral collisions in ALICE experiment	Dr ADAM, Jaroslav
10:50 AM	[70] Search for new physics with dijet angular distributions in proton-proton collisions at 13 TeV at CMS	ZHANG, Jingyu
