

Investigation of radiation damage effect on advanced materials under different irradiation conditions

Monday, 4 June 2018 15:50 (20 minutes)

This talk will summarize the irradiation tests performed on novel collimator materials. In particular, it will focus on the radiation induced microstructural changes that affect the macroscopic properties such as electrical and thermal conductivity.

Primary author: Ms ACCETTURA, CARLOTTA (Politecnico di Milano and CERN)

Co-authors: BERTARELLI, Alessandro (CERN); Mr LECHNER, Anton (CERN); CARRA, Federico (CERN); Dr TOMUT, Marilena (GSI)

Presenter: Ms ACCETTURA, CARLOTTA (Politecnico di Milano and CERN)

Session Classification: Session 2-Radiation Damage in Target Material and Related Simulations

Track Classification: 2-Radiation Damage in Target Material and Related Simulations
