## **Leveraging VMware to implement Disaster Recovery at LANL**

*Tuesday, 13 May 2008 11:45 (40 minutes)*

Based on my presentation at VMworld 2007 last year, I will discuss IS&T division's VMware implementation from a Disaster Recovery & Business Continuity perspective. We implemented one of the largest & most successful VMware deployments in the complex, achieving ROI in just 9 months while protecting critical business systems. Come learn how LANL protects both its' physical and virtual assets leveraging VMware's Virtual Infrastructure platform.

**Primary author:** KARMEL, Anil (LANL)
