NLIT08 National Labs Information Summit 2008

Sunday, 11 May 2008 - Wednesday, 14 May 2008

Hyatt Regency Chicago

Program

The 2008 National Laboratories Information Technology (NLIT) Summit brings together representatives from across the US Department of Energy (DOE) complex to facilitate an exchange of information technology (IT) best practices and ideas. This information exchange helps strengthen the IT infrastructure and provides cost efficiencies across the DOE National Laboratories by preventing the reinvention of solutions to similar problems.

Enterprise Architecture and IT Governance

ITIL and ISO20000 Experiences

"Green" Computing

Computer Security Tools (unclassified)

Showcasing Open Source Applications

Helpdesk, ServiceDesk and Issue Tracking

Collaboration Tools
