

SP-PD Technical Proposal & Technical Design Report

Bob Wilson

DUNE Single-Phase Photon Detector Consortium Meeting

September 12, 2017

Timeline

- **Technical Proposal (TP) – Q2 2018**
- **Technical Design Report (TDR) – Q2 2019**

Central Support Team

- Anne Heavey (FNAL technical writer) coordinate style/format
 - Gave a presentation at the last collaboration meeting; fairly detailed guidelines and start up documents are available
- Brett Viren (BNL) handle technical aspects – GitHub
 - Has set up a DUNE TDR repository; TP repository not set up yet.
- David Demuth (VCSU)
 - Work flow and graphic
- Mark, Ed, Eric, Anne will meet early October to discuss detailed plan and description of expectations for the TP

Photon Detection Volume

SP-PD TP/TDR Team

- RJW (chair), Technical Lead, WG leaders; Anne

Status

- Exchanged emails with Anne and Brett
- Read through some of the documentation
- I have set up GitHub account and GitHub Desktop (Mac)
 - Have been added to the DUNE Design Report Editors team GitHub list
 - Will try to become “expert” so can help PD members
- Will wait until after Anne meets with spokes before doing much more with GitHub
- October/November – outline of the Technical Proposal
