Mission

The OSG Security Team responds to actual and potential security vulnerabilities and incidents impacting OSG, and supports all of the OSG staff and resource providers in improving the security of OSG

What We Do?

Monitor Vulnerability Reports

To know when we are affected by a security flaw

Send Security Advisories to the community

*If we are affected by a known security
flaw, we send an advisory*

- *For critical issues in software we maintain, our target response time is 2 business days*

Maturing the Security Program

Conduct Security Exercises

*To ensure the readiness to handle a
real incident or attack*

Automate Machine- Repeatable processes

Assist Other Teams

We assist Ops, User Support and Packaging teams with information security expertise as requested
