

# DUNE FDSP MUSUN

## MCC9.1 Status

Anna Mazzacane  
Processing & Production Meeting  
October 25 2017

# Status

- Tests of the entire workflow showed some problems at the reco stage using dunetpc v06\_49\_00 -q e14:prof
- Confirmed by the CI validation tests I requested to the CI team to profiling the workflow stages (gen, g4, detsim, ana)
- Informed Tom who yesterday changed the SNOW request to use the dunetpc v06\_54\_00 –q e14:prof
- Yesterday I made a new request to the CI team to profile 5k events (100 jobs, 50 events/job)
- Plots are available at:
