

Pixel 2008 International Workshop

Wednesday, 24 September 2008

Imagers - One West (13:15 - 15:45)

time	[id] title	presenter
13:15	[71] X-Ray Tests of a Pixel Array Detector Designed for Coherent X-ray Imaging at the Linac Coherent Light Source	Mr KOERNER, Lucas
13:40	[67] High Resolution Digital Imaging X-ray Detectors	Dr CARDOSO, Bill
14:05	[68] CMOS pixel sensor development: a fast readout architecture with integrated zero suppression	HU, Christine
14:30	[69] Sensor and Readout Development for the HFT Pixel Vertex Detector at STAR	GREINER, Leo
14:55	[66] The DEPFET Active Pixel Sensor for future e+e- colliders	Mr RUMMEL, Stefan
15:20	[70] The DEPFET prototype for the ILC: Test Beam Measurements	Mr REUEN, Lars
