

# Short status update

# TCO is closed

TCO bolted and welded since yesterday evening  
Gabadi started activities inside the cryostat  
End of Gabadi work expected for the 12th of June

# Information & reminder

## **NP04 roof access**

- Since today the access to the roof is restricted to people with approved and valid IMPACT

## **Access into the cryostat**

- Only people who followed the briefing on confined space for NP04 (or the CERN training on confined spaces) are allowed to enter inside the cryostat
- A 'watcher' must be always on top of the cryostat in contact with the people inside (maximum 3 people inside): walkie-talkie works well
