

Mu2e-II Workshop at Northwestern University

Wednesday, 29 August 2018 - Thursday, 30 August 2018

Northwestern University

Scientific Programme

The goals of this workshop are to:

- 1) summarize progress since the last workshop
- 2) define some explicit R&D tasks for the subsystems
- 3) identify institutions interested in performing the R&D
- 4) formally document items 2) & 3).

To facilitate the last three goals, the workshop will include parallel sessions during which working groups can discuss and formulate specific replies. It is expected that draft documents will be ready by the end of the workshop.

If you are interested in participating in the discussion groups, please contact the relevant Discussion Leader(s) indicated below. People are free to get involved with more than one group if that interests them. The sub-groups and the corresponding Discussion Leaders are:

Cosmic Ray Veto : Craig Group (U. Virginia), Kres Neely (KSU) Send email to Craig and Kres

Tracker : Jason Bono (Fermilab), Dan Ambrose (U. Minnesota) Send email to Jason and Dan

Calorimeter : Ivano Sarra (LNF, Frascati) Send email to Ivano

Trigger & DAQ : Gianni Pezzullo (Yale), Bertrand Echenard (Caltech) Send email to Gianni and Bertrand

Solenoids : Andy Hocker (Fermilab), Karie Badgley (Fermilab) Send email to Andy and Karie

Extinction Monitor : Andrei Gaponenko (Fermilab) Send email to Andrei

STM : Yaqian Wang (U. Boston) Send email to Yaqian
