Buffalo buffalo Buffalo buffalo buffalo buffalo Buffalo buffalo.

is a grammatically correct sentence used as an example of how homonyms and homophones can be used to create complicated constructs. The sentence is unpunctuated and uses three different readings of the word "buffalo." In order of their first use, these are:

- The city of Buffalo, New York.
- The animal "buffalo," in the plural (equivalent to "buffaloes"), in order to avoid articles.
- The verb "buffalo," meaning to confuse, deceive or intimidate.

Homonym = a word form that has two or more distinct meanings

Homophone = a word which is pronounced the same as another word but differs in meaning

Substituting the synonym "bison" for "buffalo" (animal), "bully" for "buffalo" (verb) and leaving "Buffalo" to mean the city, yields:

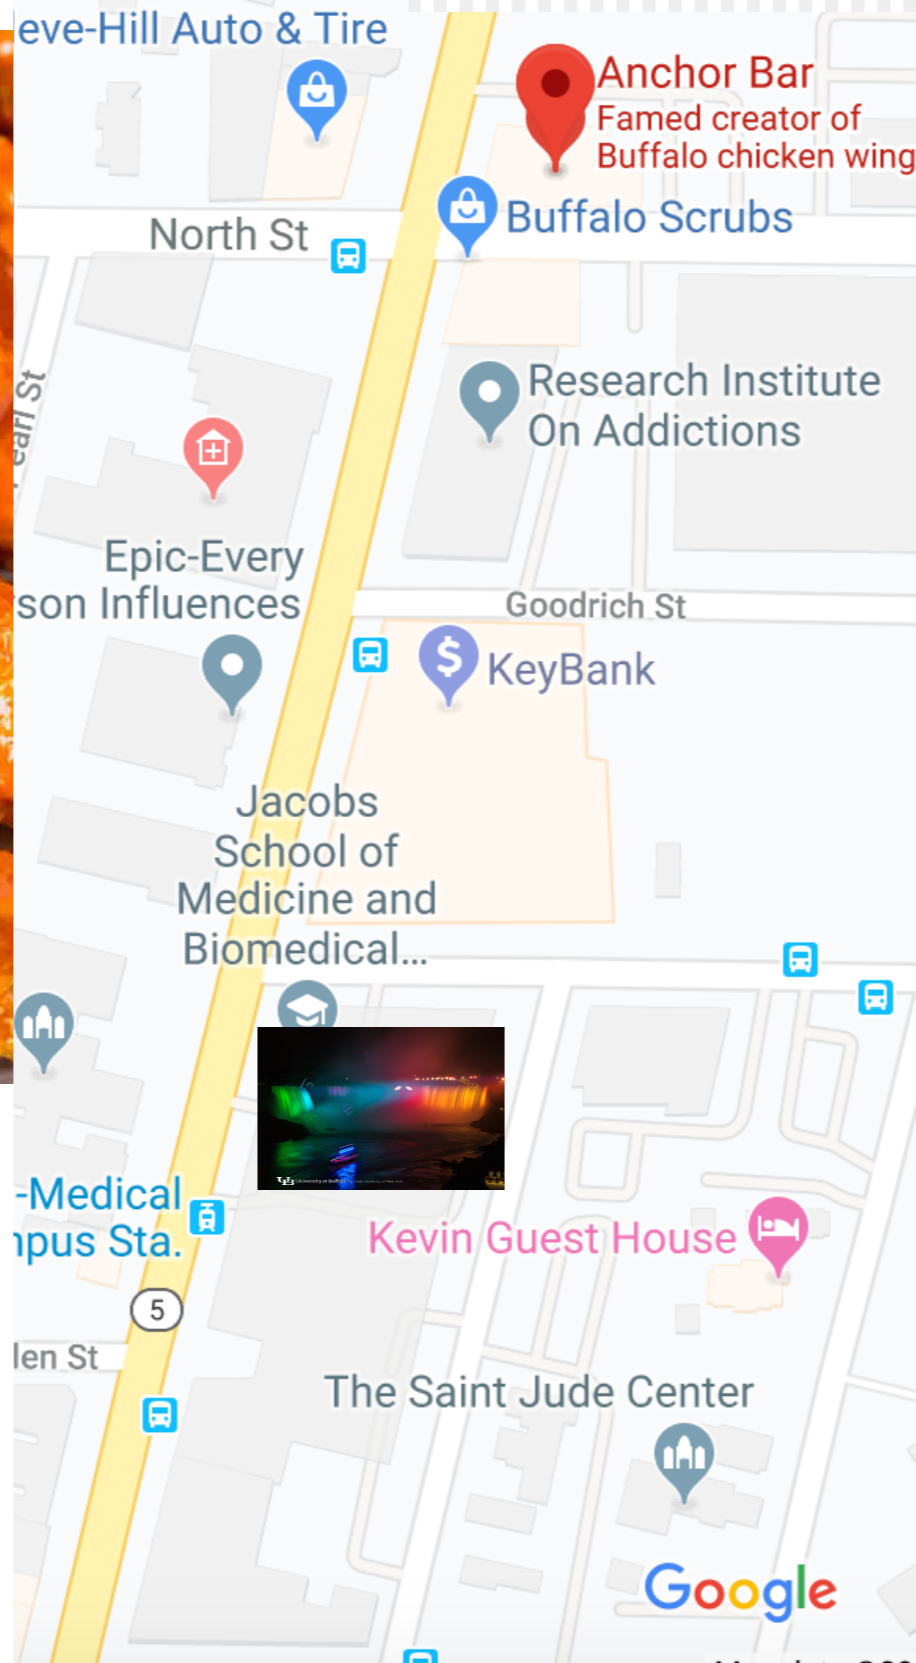

Buffalo bison, whom other Buffalo bison bully, themselves bully Buffalo bison.
