

Nuclear and Particle Theory

for Accelerator and Neutrino Experiments

FNAL May 9-11, 2019

Collaboration Meeting

Organizers: Noemi e Saori

nrocco@anl.gov saori.pastore@gmail.com

The people

This is a **small** collaboration meeting with representatives from NP, LQCD, HEP, and PHENO theoretical areas; neutrino EXPT and event generator developers

Disclaimer:

Not an exhaustive and/or complete representation of all the efforts in this field

The sponsor

Neutrino Theory Network

Thursday afternoon (that is this afternoon) @ 3:30 pm

Marcela and Andre' will tell us more about the NTN scope and vision

The objectives

- Identify the requirements and needs (of EXPT)
- Status of each of the THEO areas (where we are)
- Identify THEO areas of overlaps
- Near future goals of each of the THEO areas (what we can do)
- Ultimate goals of each of the THEO areas (what we can do)
-

Progress requires a collaborative effort
