

Welcome to FNAL: AACE Workshop is Located at IARC

The AACE Workshop will take place in IARC (Illinois Accelerator Research Center), Rooms 1WA & 1WB on the 1st Floor.

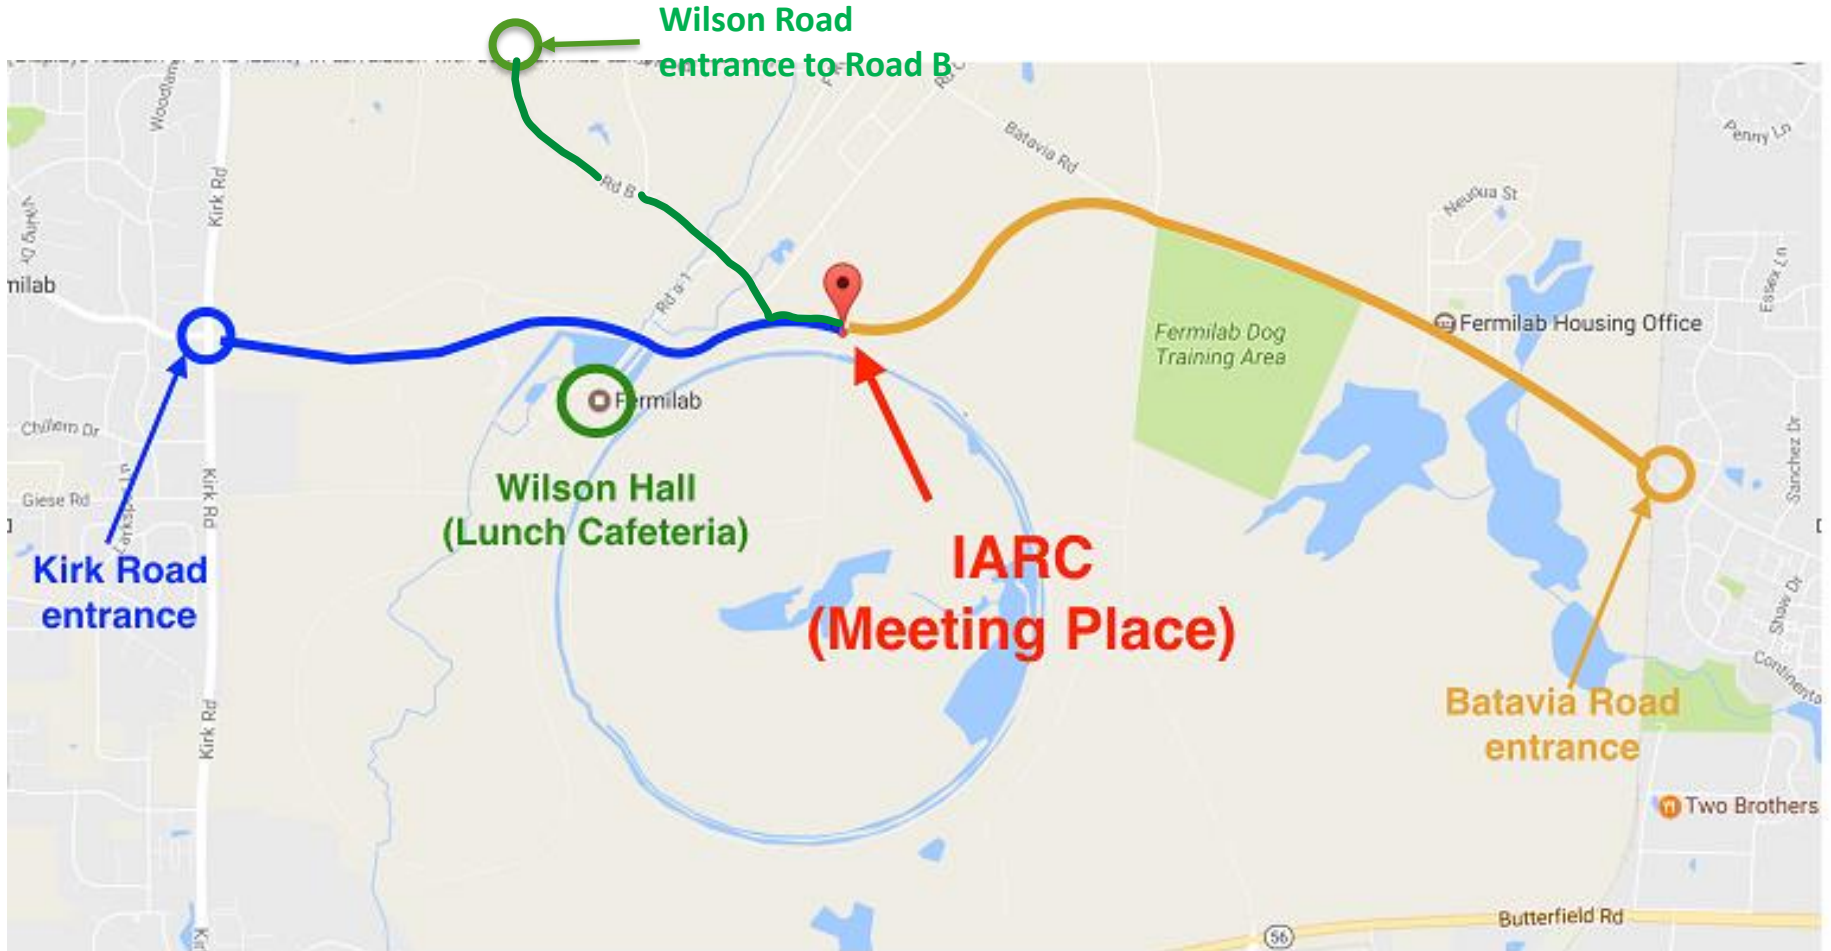

Fermilab Site Access

Visitors may enter Fermilab through any of the three entrances: Pine Street, Wilson Street in Batavia, or Batavia Road entrance in Warrenville, Illinois.

A valid photo ID is required to enter the Fermilab site, and you must also tell the security officer the purpose for your visit (Attending AACE Workshop in IARC building). All U.S. state-issued IDs are accepted at the security checkpoints.

Certain areas of the site and roadways are open to the public; others are accessible only with a Fermilab or DOE ID badge. If you need help finding your way around the site, the security officer can provide a map and give you direction to IARC. Roadways that are off limits to visiting members of the public are clearly marked with signs.
