

DUNE COMPUTING GLOBALIZATION

4/28/19

Heidi Schellman, Oregon State University

Collaboration meeting May 20-24

- Monday morning – Plenary
- Tuesday 9 AM – data model discussion
- Tuesday 4 PM – computing users meeting
 - Kind of a mini-FIFE meeting
- Wednesday 2PM – short and long term computing model planning
- Thursday 9-1230 – computing tutorial
- Thursday 4PM – Computing for protodune – joint with others?

Plan for a computing model meeting this summer

- Right now, late July, mid August and early September look best
- DPF and LP2019 kill the first 2 weeks of August

TDR draft

- <https://dune.bnl.gov/docs/dune-tdr/vol-exec/vol-exec-ch-exec-comp.pdf> has a short draft summary for computing.
- Please send comments to Heidi.Schellman@oregonstate.edu
- If anything LBNC wants it shorter but some sections are still missing.
- We need to produce a real CDR by mid-2020
