

DUNE Host Lab Computing Meeting

Michael Kirby, Fermilab/Scientific Computing Division

June 24, 2019

DUNE Host Lab Computing

- Reminder of the purpose of this meeting
 - FNAL is the Host Lab for DUNE and the success of computing is essential for the success of DUNE
 - Need to make sure that computing effort at FNAL is organized and coordinated
 - Clearly define the responsibilities and effort level and take ownership of those tasks/projects
- Meeting is scheduled to take place every two weeks - Mondays at 4:00 pm CT
- every week request a short reports from each project where FNAL is lead or doing development
- projects would give longer discussion of plans every quarter, and the agenda will be set the week prior
- Spreadsheet to set priorities and discuss effort levels
- Slack Channel - <https://fnal.slack.com/messages/CKURKL672>

DUNE Host Lab Projects

- Link: https://docs.google.com/spreadsheets/d/1F26magMBQq2PSw14n6G6hT9DtwpuD8E2_QamyJTWYPg/edit?usp=sharing
- Please contribute both to the list of projects and the rankings
- Rankings for the projects
 - 1 - host lab must do because of either DoE/FNAL/etc decree/flat
 - 2 - host lab wants to do (e.g. Rucio devel to make sure it plays well w/ Enstore/dCache)
 - 3 - meh - no opinion either way
 - 4 - do not want to do
- Categories: project lead, development, infrastructure, operations, support, notes
- as it's a live document, let's discuss and review what's already in there...
