New Feedback since 1. June 2019

- Need web documentation for taxi service
  - What are the normal procedures of the taxi service onsite before the pilot service change on June 3. Where can I find information about the taxi service on the web?
- Install a bike station at the D0 assembly building
  - Would it be possible to install a bike station at the D0 assembly building? On the SBND experiment, there has been an expression of interest from several people, especially (and appropriately) summer students.
  - Follow up: "If there is no money for a new station, would you consider waiving the 2 hour limit for the students who travel to D0?"
- Clarify procedures to get food delivered to the dorms or the houses in the village
  - Please clarify how food can be delivered to the dorms or the houses in the village to help people without cars to do their grocery shopping? Does one have to inform the guards everytime and beforehand that a food delivery is expected and what the schedule is? At houses, the delivery drivers can knock, how does this work at the dorms?

🟥 **Fermilab**

Further follow up

- Bike policy in WH - long standing feedback item to the Users Executive Committee
  - Forwarded complaint about bike policy ("Protected bike parking, related to bike policy in WH") to EAG, to include members of user community in committee to update bike policy for the lab
- Displays for One West to display schedule
  - Forwarded to Greg Bock and Heath B O'Connell
    - That sounds like a good suggestion,although figuring out how we decide what to post there on a daily basis needs some thought.
    - Pushpa is working with AD and the experiments and CCD to develop status pages that could be displayed on a remote screen. What she has so far is being displayed right now right outside the Directors Conference room on one of those screens. The goal is to have this up for the start of the next accelerator run.
    - I think once we have the displays functioning somewhere we can figure out how to get screens positioned strategically.
  - Nothing from Heath
