

# LArSoft Coordination Meeting

## *Release and project report*

Saba Sehrish

08/13/19

## Today's agenda and speakers

- Release and project report (Saba Sehrish)
- A new shower reconstruction module (Dominic Barker)
- Removing more header and link-time dependencies (Kyle Knoepfel)
- LArSoft issue 23013: status and implications for experiments (Chris Green)
- AOB

# Releases

- Please check the [release notes](#)
- We are now using ups v6\_0\_8.
  - The only change over ups v6\_0\_7 is improvements in the setup and setups scripts.
  - Everything else remains the same.
- Last week:
  - larsoft v08\_27\_02
    - This release has the optimized GausHitFinder presented at [July 16<sup>th</sup>, 2019 coordination meeting](#). The corresponding feature branch is larreco feature/team\_gshf-larsoft.
    - It also has changes to larpandoracontent and larpandora; the corresponding feature branch is feature/larpandoracontent\_v03\_15\_03.
  - larsoft v08\_28\_00
    - This release is built off the v08\_27\_02 tag.
    - It has change necessary to use genie v3\_00\_06.
      - **Breaking change:** feature/team\_for\_v08\_28\_00 is provided for the experiment code
    - It has support to make an optional SLF7 build with python 3.
      - Use the additional **py3** qualifier to specify this build

# Releases

- This week:
  - Changes in develop
  - Any other requests
