# Alternate technology 30-minute discussion

- What are likely to be the key scientific questions when the 4<sup>th</sup> module is deployed and what channels should be measured to best address them?

# Alternate technology 30-minute discussion

- Are any of the channels better measured by alternate technologies?

# Alternate technology 30-minute discussion

- Given what alternate technologies can do, are there any modifications we might consider to LAr TPCs that would allow us to measure these signals?
