

Dual Phase Photon Detection System Consortium Meeting

Inés Gil-Botella

DPPD Consortium Meeting

10 September 2019

Topics for today

- Latest news
- ProtoDUNE-DP: status and light data analysis (Jose, Ana)

TDR status

- DPPD TDR finalized
 - Interface documents: Burak prepared consortia-to consortia, consortia-to facilities and consortia-to-installation documents (in DocDB and EDMS)
 - Waiting for feedback from the other groups
 - Some discussion on Supernova Burst Triggering Requirements
 - We need to change some text in our TDR (SP/DP-FD-23 requirement & DP-FD-1 requirement)
 - Changes approved by DUNE Executive Board on Sept 5th
- Experience from protoDUNE-DP expected to be incorporated in final version
- LBNC review on DP TDR volume: Dec 2-4, 2019

TB meetings

- June 13th: Interface documents
- August 8th: Comments after LBNC review (31 Jul – 2 Aug)
- August 29th: APA grid plane
- Next one: September 12th

Next important dates

- RRB meeting at Fermilab (Sept 19-20, 2019)
 - Cost estimates and responsibility matrices
- Collaboration meeting at Fermilab (Sept 23-27)
 - **DPPD Consortium session:** Wednesday, Sept 25, 9:00h (US/Central)
 - Please send us requests for talks
 - **Photon System: Joint SP/DP Physics and Simulation:** Wednesday, Sept 25, 11:00h (US/Central)
 - Please send us requests for talks
- LBNC meeting (Dec 2-4)
- Collaboration meeting at CERN (Jan 27-31, 2020)
