

# CISC at Collaboration Meeting

- DUNE Collaboration meeting, Sep. 23rd to 27th (<https://indico.fnal.gov/event/21445/>)
- Two dedicated CISC parallel sessions
  - Tuesday, Sep. 24th, 11 to 12:30 pm CT
  - Thursday, Sep. 26th, 11 to 12:30 pm CT
- One joint CISC session with DAQ/CAL/COMP
  - Thursday, Sep. 26th, 4 to 5:30 pm CT
- Plus some planned discussion time with CAL (in one of their 3 sessions) on CAL-CISC interfacing element e.g. ports — may end up being a short joint parallel — we will keep you posted
- **Please send request for talks at the collaboration meeting by next Friday**
- **Anselmo and I will also be requesting talks on topics related to designs and PD-II plans**

# CISC Scope Review Report

- Scope workshop held in June 2019 at CERN. CISC had a series of talks
- Review committee: David Montanari, Gina Rameika (Chair), Filippo Resnati, and Ruben Saakyan
- Report prepared and received factual errors/corrections and comments from Sowjanya/Anselmo
- Report discussed at the EB meeting on September 5th
- Report is largely positive with some recommendations on follow up studies. (will elaborate when we go through the report)
- There will be a follow up scope review for CISC within 6 months (expect sometime in January 2020)
