

DAPHNE Run 2B

Rory Fitzpatrick
ICEBERG PD Meeting
October 7, 2019

ICEBERG Run 2B

- Like the SSP, DAPHNE took voltage scan data at the following settings: 42 V, 47.5 V, 48 V, 48.5 V
- DAPHNE was triggering on only the top cosmic paddle during these runs.
- Run numbers and configurations can be found in the run log: <https://docs.google.com/spreadsheets/d/1N9uZlgIMq-AA6ypK-5Z2lwPi1CDgLdd0IVJVP3ZY1O4/edit?usp=sharing>
- Please get in touch with me for instructions for accessing data.
