AVAILABLE**

Get them before they're gone!

The University of Washington's Physics department is involved in many research programs and is home to a number of experiments. We are very happy that our faculty post-docs, and students have expressed interest in leading small tours of some of the labs.

Tours of the Center for Experimental Nuclear Physics and Astrophysics ([CENPA](#)), featuring the Axion Dark Matter Experiment, will be available on Thursday and Friday.

| Date | Time | Location | Sign-up link |
|---------------|---------|---------------------------------|-------------------------|
| Thursday 7/21 | 1:00 pm | CENPA Courtyard | sign up |
| Thursday 7/21 | 1:30 pm | CENPA Courtyard | sign up |

Bringing us closer. Remotely.

Host engaging networking events online for people to meet each other.
