Remotely Green - Early Career Networking

Monday, July 18, 2022 1:00 PM (45 minutes)

One of recognized challenges with the virtual and/or hybrid meeting formats is that they offer limited opportunities for chance or planned encounters with other participants.

In partnership with Remotely Green we are running a couple of “virtual networking” events this week.

Each event lasts 45 minutes and allows you to meet and have around 7 rounds of 6 minute chats with up to 3 people in each round. Some icebreaker topics will be suggested based on some topic choices you will choose. See the short video at the bottom of the Remotely Green webpage for a better idea.

See the web page for more information: <http://seattlesnowmass2021.net/green/>

To connect to this event and get started (or read up on it) go to <https://app.remotely.green/event/snowmass-2022-early-careers>

In-person or Virtual?

Presenter: ELMER, Peter (Princeton University)

Session Classification: Social
