

Conduct @ Snowmass Community Summer Study

By participating in this workshop, you are consenting to abide by the DPF Core Principles & Community Guidelines (see <https://snowmass21.org/cpcg/start>).

Respect and support community members.

- Use privileged status to empower & amplify voices that are being excluded.

Communicate with *empathy*.

- Try to understand others' ideas and perspectives before addressing them.

Commit to *constructive dialogue*.

- Criticize ideas, not people. Provide reasoned arguments that improve conversation.

Take initiative.

- Intervene when you see behavior that violates community standards.

Violations of community guidelines can be reported to the Ethics Advisory Committee's Code-of-Conduct Response Team via email (snowmass-code@u.washington.edu) or Slack ([#code-of-conduct](#)) message, over Zoom, or in person.

- The CRT will treat all reporters respectfully and all complaints seriously.
- » Behavior requiring an **immediate response** should also be reported to the session chair, Slack moderator, or similar authority.

You are encouraged to invoke the CP&CG as needed to promote and maintain a welcoming, professional, and safe environment for all workshop participants!

Cross Frontier Sessions: Long Baseline Neutrinos and Underground Facilities (UF) for the Neutrino Frontier

We think this could be a useful forum to gather people who are interested in locating their projects in the underground facilities and the experts on those facilities to see if there are any needs or decisions that would impact planning on either side. An ideal outcome would include the generation of a short list of facility and infrastructure needs as well as potential opportunities for complementary or shared/repurposing uses.
