

ICEBERG Electrical Plans

L. Bagby, T. Shaw

October 31, 2019

Steps to success

- The PD will operate with Daphne.
- Power will be provided by a Wiener MPOD module.
- Electrical Engineering support is identified
 - Miguel Marchan
- EE Tasks include
 - Design and generate electrical schematic for the PD system implementing the DUNE Grounding and Shielding guidelines and ‘best engineering’ practices.
 - Participate in the installation and check-out of the new system.
